Dr. Yang did not have time to listen to your tape. He is now in Hong Kong. He asked me to return it to you and tell you he had no objections to your using it.

Subject: Accompanying tape recording

Dave Woods provided me with the full tape of your recent conversation and told me you had agreed to let me excerpt some of that for the weekly radio broadcast, "Here at Stony Brook." I have had copied on the accompanying cassette the excerpt I thought interesting for a general audience. It runs 12 minutes 50 seconds.

I propose to use it on the program of Jan. 3 over WUSB-FM (6 p.m.).

I'd appreciate your taking the few minutes needed to listen to the tape and to let me know that I may release it, or that you want to delete some part(s).

Thanks for your prompt attention before departing.
