MESSAGE FROM THE CHIEF

Robert Lenahan Chief of Police

As the Police Chief for the University Police Department, and on behalf of the Office of Emergency Management, the Office of Access Control, and Parking Enforcement, I want to welcome you to the first edition of the UPD newsletter. All of the above areas which fall within the University Police Department share a common set of core values and beliefs. These core values and beliefs can be captured in the simple phrase "we provide for the overall safety and security of all individuals who are on our campus".

Although the above statement simplifies what each

Department is all about, the reality is that each area has many roles and responsibilities within this campus setting. The purpose of this and subsequent newsletters is to better educate the campus community on specific responsibilities, as well as to offer basic tips which will make your time spent with us safe and enjoyable.

The basic format of our newsletter, which I am sure will evolve over time, will be to highlight each department mentioned above, and give readers a more in depth understanding on specific responsibilities. The authors of each respective section will also provide important information which readers should find educational and may be of significant benefit.

Since being appointed the Chief of Police almost two years ago, I have focused on ensuring the University Police Department works in collaboration with our key internal partners within the University, as well as our external partners such as the Suffolk County Police Department and other important agencies. Due to the important contributions of all of our department members, we have made tremendous strides in these areas.

I have been and continue to be amazed at the true professionalism exhibited by our members on a daily basis. This includes our patrol officers who are the first responders when people in need call, our investigators who conduct criminal investigators which quite often lead to fantastic arrests, our Community Relations Team that provides Crime Prevention lectures and workshops, as well as my executive staff that makes sure it all runs smoothly.

Since you are reading this, I would like to encourage you to share this newsletter and spread the word to other areas and departments you think may benefit by the materials contained in the following sections. If you have any suggestions on what you would like to see in this newsletter, please feel free to contact Hilary Wolfskill at 631-632-3046.

Hope you enjoy and please stay safe!

Stony Brook University is an affirmative action/equal opportunity employer.

EMERGENCY MANAGEMENT

Lawrence Zacarese Assistant Chief of Police / Director of Emergency Management

The Office of Emergency Management is HURRICANE PREPAREDNESS located within the University Police Department and is tasked with all aspects of Hurricanes are violent storms which can community. The mission of the Univer- surge, floods, coastal erosion, landslides, sity Police Office of Emergency Manage- and tornadoes. While it is difficult to prement is to:

- Maintain the highest level of preparedness to protect the students, faculty, community.
- To mitigate loss of life and vital assets prior to, during, and after an emergency or critical incident.
- To facilitate the fastest possible recovery after an emergency or critical incident.

The Office of Emergency Management works with all campus emergency responders, public and private agencies, volunteer organizations, and the local business community to meet this mission. The Office is also responsible for identifying campus vulnerabilities, effectively mitigating disasters, providing public education, responding to allhazard emergency situations, ensuring continuity of campus operations, and coordinating recovery efforts with various campus departments. Emergency Management frequently partners with the Department of Environmental Health & Safety, Campus Operations & Maintenance, Student Health Service, Campus Planning, Design & Construction, Athletics, Campus Residences, and the Office of Student Affairs.

The Office of Emergency Management functions as the primary coordinating office with local, state, and federal agencies, as well as private entities to develop, maintain, and implement the University **Comprehensive Emergency Management** Plan (CEMP). These partnerships are crucial for planning purposes and the Office maintains close relationships with the Suffolk County Police Department, Suffolk County Fire, Rescue, and Emergency Services, Nassau County Police Department, Federal Bureau of Investigations, State Emergency Management Office, and others to ensure all agencies collaborate and share information.

which two become major hurricanes.

What should I do during a Hurricane?

- Follow the instructions of University Police, Fire Marshals, and emergency personnel.
- Stay indoors until advised to exit.
- Stay in interior hallways and keep doors closed.
- Do not open windows or doors to see what is happening outside.
- Beware of the "eye" of the storm. The "eye" is the center of the hurricane, which may bring a temporary period when the air may be calm.
- Do not leave your safety or shelter until advised by emergency personnel. Residential students will be notified by To register for SB Alerts visit: campus residence staff.
- When the "all clear" is given, exit your location with extreme care. Beware of To view active and archived SB Alerts and electrical wires, broken glass, and falling or fallen objects.
- Do not enter structures, vehicles, or areas that are damaged; many people are electrocuted after a storm.

For information about Stony Brook University re-opening, call the SB Alert Hurricane Hotline at (631) 632-7669.

SB ALERT & EMERGENCY COMMUNICATIONS

emergency preparedness for the campus bring intense winds, heavy rain, a storm SB Alert is the University's emergency notification system. It is used to alert you of major emergencies, immediate threats dict the exact time, place, and force of or impending situations that can pose hurricanes, the tri-state area and our harm to you, disrupt classes, impact facampus community must be prepared. cilities, activities, or other operations. The hurricanes season began on June 1st When activated, the system can send a staff, and other members of the campus and lasts until November, although most voice, alphanumeric page, e-mail and/or hurricanes occur in mid-August to late text message to all of the devices that you October. Each season, on average, six enter into the SB Alert contact informahurricanes form in the Atlantic Ocean of tion. All students, faculty, and staff are encouraged to sign up for this service and update their contact information when it changes.

> The Office of Emergency Management has recently created an SB Advisory page that is used to notify the campus of incidents that do not necessarily constitute an immediate threat, but rather are for informational purposes only. Examples of SB advisories may include weather forecasts, emergency management programs or training announcements, and campus traffic conditions or road closures.

UPCOMING PROGRAMS

Due to the reduced summer schedule and limited amount of students on campus, there are currently no programs scheduled. If you are interesting in scheduling a program please contact the Community Relations Team at (631)632-3056. Please check back after the school year has started to see more of the scheduled programming.

RECOGNITIONS

University Police Department: The Stony Brook University Police Department was recently presented with the Frederick R. Preston Partnership Award by the Counseling and Psychological Services (CAPS) & Center for Prevention and Outreach Services (CPO) in partnership with the Office of the Dean of Students for outstanding service and contributions to the quality of student life on the Stony Brook campus.

Assistant Chief Zacarese: Our Assistant Chief of Police / Director of Emergency Management, Lawrence Zacarese, was also recognized individually by Student Health Service for his personal contribution to the quality of student life.

Detective Borowski: Detective Gary Borowski was awarded the Campus Safety Officer of the year for 2009 by the Long Island College and University Security Consortium for his efforts in the apprehension of a male that was responsible for numerous burglaries on Stony Brook campus as well as Adelphi, St. Johns, Montclair State University, and the New Jersey College of Dentistry and Optometry.
