

To: All Faculty and Staff

Colleagues,

The next event in the Provost's Lecture Series is a talk this rank Bweek by Frank Brown on "Time, Fossils, and Environments: Turkana's Place in the Human Story." Professor Brown is a member of the Department of Geology and Geophysics and Dean of the College of Mines and Earth Sciences at the University of Utah. His talk coincides with Stony Brook's efforts to create a Turkana Basin Institute here on campus.

Brown's presentation is on Thursday, March 9th beginning at 4:00 p.m. in Lecture Hall 2 of the Wang Center.

Please pass along this information to any students or community members you feel may be interested in attending.

- Robert McGrath, Provost & Executive Vice President for Academic Affairs
