Censorship at State U.

Last December, Mr. Nicholas LaBella asked the Newman Club if he could speak to them and show the film "Communism on the Map". The club invited him without further investigation of his suitability or the format of the program. Mr. LaBella proceeded to make arrangements for a public meeting without consulting the club. The club then withdrew its invitation.

Following this Mr. LaBella, in letters to the Brooklyn Tablet and the Metropolitan Review, charged that he had been censored. "I believe it was not the Newman Club but someone higher who cancelled my address." (Brooklyn Tablet, Dec 16)

In later letters the charges increased.

I see why 'rays of truth' MUST BE KEPT OFF OF COLLEGE CAMPUSES LIKE THAT.

I WOULD LIKE TO TALK ON 'FREEDOM OF SPEECH CONCERNING THE INTERNAL MENACE OF COMMUNISM, BUT I'M NOT FREE TO DO IT BECAUSE OF THE INTERNAL MENACE.' (Metropolitan Review, Mar. 22)

The Newman Club denies that there was ever any pressure put on it to cancel the address. Their reason was that Mr. LaBella was preparing a meeting that they felt was beyond the proper scope of the club.

Two reporters for the Statesman talked to Mr. LaBella to obtain amplification and explanation of his charges. The following questions and answers form a part of the conversation:

Q. Mr. O'Neill faculty advisor of Newman club says that by 'public' he meant the college community. How did you understand him to use the word?

A. When I give a talk I like as many people as possible...By public I mean anybody, any friends of the students, or what-have-you.

Q. You believe that the withdrawal of an invitation constitutes censorship?

A. I don't believe it was the considered opinion of the club officers.

Q. Did you try to get any other organizations to sponsor your speech?

A. No, I didn't.

Q. Don't you think you should have?

A. That's a good question. Yes, perhaps I should have.

Q. Please explain your remarks on the 'internal menace' (the entire quote was read)

A. This was in a letter I wrote? Q. Yes, in the March 22 issue of the Review. Signed Nick LaBella

A. Well, what would you like to know about the internal menace.

Q. Could you give me specific details of the 'menace' at our school?

A. Well, perhaps I was just speaking hypothetically. I wouldn't

Graduation

Arrangements for the June, 1962 graduation exercises are currently being made by a committee under Mr. Tilley. As of the present, the plans are very indefinite. The ceremonies are tentatively scheduled for Sunday, June 3, in the same outdoor setting as last year. A guest speaker and several other dignitaries are expected to be present, but no definite arrangements on this have as yet been made, although it is hoped that President Hamilton will be able to attend. This year's exercises will mark the first real university graduation at the Long Island Center, with Three types of degrees - arts, sciences, and engineering - being awarded.

Mr. Cappello will use Dean Austill's office and Miss McMahon will be his secretary. Mr. Austill is on leave at the moment, and working in Jordan for the Ford Foundation.

Mr. Cappello has only been recently appointed to this office, and has only been able to make one trip to the Stony Brook campus thus far. He did mention during an interview that it will be necessary to make the move late in summer due to the many research projects now under way.

Actually the move will not entail moving such a great deal of equipment, since all the furniture will be new, although much specialized equipment has to be moved. This will include files and scientific equipment among other things.

Other problems are involved with the fact that many facilities will have to occupy temporary quarters until permanent facilities are completed. This will mean that many things will have to serve for purposes for which they were not designed.

Mr. Cappello is married and has five children. He holds a Bachelor of Architecture from Reasselaer, Polytechnic Institute, and has specialized in this field.

PH.D.'S Awarded

Mr. Michael Parenti will be awarded his Ph. D. degree in political science by Yale University this coming May. His dissertation was on the subject of ethnic political behavior. Mr. Parenti also holds a B.A. from GCNY and an M.A. from Brown University. At present he is writing several articles intended for publication.

Mr. Allan Wildman has received his PhD from the University of Chicago in the field of Russian History. The title of his thesis is "Russian Social Democracy 1894-1901".

Mr. Wildman mentioned that he has spent four years working on his dissertation, including 1 year in Europe and another using Libraries in New York City. He plans to confer with publishers during the coming year in an attempt to get it published.

Mr. Wildman deserved double congratulations since he has been promoted to Assistant Professor of History.

All unsigned editorial matter reflects the opinion of the entire Editorial Board.

At this time, with elections coming up for the major Polity offices, it is important for the student body of the Long Island Center to pause for a moment or two, in the fervor of campaigning, to reflect on just what the student government means and whether it is a worthwhile activity to be continued.

Do we really want a student government? Is there enough community interest so as not to make this activity a farce? Is this simply a campus "tradition" maintained by a few for an apathetic majority? Would it matter to the majority if the government was abolished? We feel that it is quite conceivable that the student body would vote for anarchy with the same calm indifference that they vote for any candidate.

In the preamble to the constitution of the Polity it is stated that the "objectives of a learning community are to promote and preserve significant inquiry through the exchange of ideas; to develop the intellectual and moral powers of students; and to prepare graduates to assume a responsible and productive role in society." It states further that "with these ends in view, the Student Polity at State University College on Long Island shall be the instrument whereby the student body makes its contribution to these objectives. Through this instrument, subject to the policies of State University, the student body shall assume its proper share of responsibility in promoting the well being of the College Community."

At the time of the statement of these aims, the words were sincere and had a significant meaning to many students. It is doubtful whether these aims are any more than mere words to the majority of the student body at this time.

We are of the opinion that it would be beneficial to the college community if a restatement of these aims were attempted. A complete reexamination of the form and purpose of the Student Government, perhaps, would have revitalizing effects on the Government.

This is not a suggestion that the Polity form of government that exists at State U. should be abolished. Whenever a government, no matter what form it is, becomes complete habit, when people have lost sight of the principle behind its formation and the goals it is striving for, then this government can no longer provide the cohesive forces necessary for an effective and dynamical community.

It is especially important, in a polity form of Government that the people you elect are well qualified since they are not elected as Representatives but as leaders.

Letter to the Editor

An Open Letter to the Student Body: What has happened to respect for this college institution? It seems to me that the high moral and ethical quality of the students in this school is dwindling. Let me cite a few examples.

There was a time when one could enter the student lounge to read, play cards or just sit. Now obscenity has run rampant. Remarks have been written on the door and vulgar language is the order of the day.

Just last week the "lounge crowd" had a bottle of beer in there with them. I thought this was a dry campus.

The last example I would like to cite is that of public displays of affection. I am really not a prude, but I cannot understand why the college community must be present to bear witness to their love-making. People carry things too far. I have a lot of love for this school and I don't want to see it get a reputation that will be a discredit. Without taking this topic to Coe Hall, I hope "for-warned is fore-armed."

CENSORSHIP

(Continued from page 1)
say the Communists kept me out of it.

In your letter to the Tablet, you mentioned two reasons Mr. O'Neil gave for the cancellations, poor attendance and possible hecklers. Did he give you any other reasons?

A. Well, yeah.
Q. Mr. O'Neil told us that the Newman Club cancelled your speech because your presentation was not compatible with the purpose of the club.

A. Well, my wife and I had a big discussion on the matter.

Q. Why didn't you state the other reasons in your letter to the Tablet?

A. (no answer to the question.)
Q. Do you think it a violation of your right of free speech when the Newman Club withdrew your invitation?

A. Well, yes, in a way it was, for the reasons stated.

Q. Don't you think that this withdrawal of invitation was essentially the freedom of choice of Americans?

A. It was, it was.

Q. People have read in your use of 'internal menace' only the word 'Communist.' If you were invited to speak on campus, would you write a letter retracting your charges?

A. I certainly would write a letter more fully explaining the internal menace. . . But really, right now I couldn't care less. I gave my speech to the Newman Club at Hofstra.

Q. Would you care to make a final statement?

A. As far as the internal menace goes, that covers a lot of things, not just a little fellow running around with a bomb. . . It consists of. . . apathy, indifference, etc. The main point I want to stress is that a talk on Communism does fall within the scope of a Newman Club.

It is unfortunate that the Newman Club did not find out more about Mr. LaBella and his plans. The club offered its explanations piecemeal, without much foresight. On the other hand, Mr. LaBella's conclusions seem to be entirely unwarranted by any evidence whatsoever.

After talking to both Mr. LaBella and Mr. O'Neil, there seems to be no substance in the charges brought against the school; there was no mysterious Communist 'they' keeping Mr. LaBella away.

There will be an important meeting of the entire Statesman staff on Tuesday, April 24 at 6:30 P.M. in Dome 9.

At this time all persons desiring to run for Editor-in-Chief of the Statesman for the academic year 1962-63 will present their platform and their slate for editorial board.

Anyone who is planning to run should tell a member of the present Editorial Board so that their qualifications can be checked before the Tuesday night meeting.

Elections will be held on Tuesday, May 8.

C & C

Curtain and Canvas will sponsor its final activity of the year with an all-day event. The spectacular day will consist of a boat trip around Manhattan Island, supper in New York, and a play in the evening.

Sunday April 29 has been chosen for this gala expedition which will commence with a three-hour sight-seeing tour around Manhattan Island aboard one of the Circle Line excursion boats.

After supper in the heart of town, the students will meet at the Theatre Marquee where Frank Gero is presenting DEAR LIAR.

The whole day has been planned to meet the interests of the students and it is hoped that it will be as enjoyable as intelligible. Tickets will be on sale in the Cafeteria starting Monday and can be purchased at \$1.00 each. Transportation will be provided by a bus which will leave the campus at 12:30.

ELECTION CANDIDATES

Polity

Moderator

Amy Aronson

Qualifications:

- 1) Junior Class President - 1961-1962
- 2) Sophomore Class Representative - 1960-1961
- 3) G.O. President - Long Island City High School

4) Member, for two years, of a class in leadership at L.I.C.H.S.

The need for a student government has been questioned on almost every campus in this country. Whenever I've asked friends from other schools what they thought of their government, if they weren't working members, they looked on it with disdain. "It's a useless organization," they say. "It serves no function."

Yet, there is a definite important function that an organized student government can serve. There is no better example than the role the executive committee played at the beginning of this year. When a committee was needed to represent and express student opinion the executive committee provided an organized and efficient machine which had the authority to be heard in Albany.

Next year, also, such an organized representative group is needed. The situation of a new campus and a partially divided campus will necessitate a group on campus that will automatically assume a program such that, in the shuffle, student interests are not forgotten. In order for this to happen, the executive committee must get off to a quick, efficient start. It must cope with the many immediate problems arising from the move to Stony Brook and it must deal with the long range problems of the desirability of a new constitution and the rate of growth of student activities that would be most profitable. Whether or not the committee will accomplish all it sets out to do or all it should do is dependent, to a large degree, on the moderator. The moderator, as the chairman of the meeting, both theoretically and practically, has the ability to stifle progress or to promote it. An experienced moderator who is aware of the time required to get things done can plan ahead so that there is time left to accomplish everything. An experienced moderator won't get bogged down with minor details so that major issues are completely forgotten. An experienced moderator can steer the executive committee ahead without dictating the final specific direction, in the process. I believe that I have this experience.

Notice

Anyone who is interested in a Red Cross Water Safety Instructors course should register at the Red Cross Headquarters in Huntington. The course starts May 8 at the Northport State Hospital pool. Immediate prerequisite is that the candidate must hold a current Red Cross Senior Life Saving Certificate.

Alex Censor

Alex attended Long Beach High School where he earned his letter in Soccer, Second Prize in the South Nassau Science Congress in 1958 and was a member of a "non-functional" science club. He is, a Biology Major (non-teaching)

and intends to go into graduate work. He lists as his hobbies and interests Biology, skiing, water skiing, swimming, people and driving.

Alex lists his policies as, 1. to attempt to eliminate non-functional aspects of the Executive Committee operations and discussions, and,

2. to keep student activities fee as small as practical and applied proportionally to student interest in participation in these activities.

With regard to his qualifications for the position of Moderator, Alex feels that they include the "desire and ability to carry out the duties of Moderator and wield the powers allocated to the Moderator with the objective of achieving student goals."

Treasurer

Ted Hajjar

My qualifications for the office of Polity Treasurer include two years of active and proven work on the Executive Committee as Freshman and Sophomore Class Presidents. My activities this year in the Executive Committee includes membership on the Budget committee. With two years of Executive Committee experience and with the experience of preparing next years Budget I believe I have the interest and experience necessary to further develop the important office of Polity Treasurer.

I propose that in the coming school year that the Executive Committee establish a student advisory system with interested upperclassmen providing some measure of guidance to the incoming freshmen with regard to relationships with faculty members, study habits and difficulties with subject matter. This system would act to supplement the faculty advisor system and create a feeling of community that will help stem the great number of expected dropouts next year.

I would also propose that the resident students at Oyster Bay be allowed to stay over at the Stony Brook Campus over the weekends. This would reduce the cultural and social isolation of the students residing in Oyster Bay.

Shelly Silverman

Shelly was graduated from Richmond Hill High School in 1960. During that time she was a member of the Artista, Newspaper Synchronized Swimming League and Chem Club. Once at State, Shelly joined the Newspaper and the Chem Club. At the end of her freshman year she acted as parliamentarian at the meeting about intercollegiate sports.

This year Shelly is still a member of the Newspaper and has acted as secretary of the Chem club. She has recently been re-elected for a term beginning Sept. 1962.

Shelly's platform is a simple one. She is very willing to aid new clubs, ones that aren't conceivable this year. She is looking forward to Stony Brook and she expects new traditions to be originated there. These too will get her special attention. She has never been a member of Polity before but has been roused to action by the lack of interest shown by most of the school. She feels new faces should be seen on Polity and is quite sorry that more students aren't running. It isn't winning that really matters. By running and opposing someone for office you aid to assure the school of the "best man possible for the job."

Recording Secretary

Alice Paster

I'm running for recording secretary of Polity on a platform of "platformlessness." As a voting member of the executive committee I feel that my decision should be made after the issues have been discussed not dogmatically before the question arises.

As for qualifications; at State I have been recording secretary of J.S.O. and at present I am exchange Manger of The STATESMAN. I feel, I am qualified and will perform to the best of my ability if elected.

The year book staff is now taking orders for the '62 Specula. The cost is \$4.25 and there will be a fall delivery. If you wish to purchase a copy, contact Judy Stout or Lani Shearer, or send your name and fall address with the money to Specula-Sales. All orders must be in by May 3. Note that the Student Activities Fee provides every student with a book.

Flo Friedman

Corresponding Secretary

The Preamble- (1st part missing)

The preamble to the Student Polity Constitution states that it shall be the instrument whereby the student body makes its contribution to the objectives of a learning community; to promote and preserve significant inquiry; through the exchange of ideas; to develop the intellectual and moral powers of students; and to prepare graduates to assume a responsible and productive role in society. I like these ends. I feel they are why I came to college and I would be proud to serve on a committee who held them as important. I offer as my qualifications for the office of Corresponding Secretary my previous offices as secretary of the Physical Society for the past two years, secretary of the History Club at the college I previously attended and corresponding secretary of the Troy Tennis Association for the past three years. But most of all, I suggest that my love and enthusiasm for Long Island Center might be my best qualification. This school, sufficiently aware of its academic responsibilities, seems to be lacking in the area of student response to clubs, activities, and, very definitely, student government. This school deserves our support. It is new and struggling to survive. If it fails it will be a tragedy; if it succeeds it will be great!

I very sincerely ask you, the student body, to let me have the opportunity to work with the executive committee who is on the side of those trying to help make it great. I hope everyone will want to help. Next year, along with the foundation for the school will be laid the foundation for government and into it will go the strength and weakness of those who cared and those who were indifferent.

It would be hard to say specifically what I would do if I were elected since the demands to be met will not be clear till next year but I would make an honest effort to fulfill my duties and I would continue to maintain my interest in student government which I am indicating now by my desire to run.

Barbara Campion

I have been vice president of the J.S.O. for the past year which, I feel, has given me adequate experience in the field of leadership. As corresponding secretary I shall also have a voice in executive leg-

islation. I realize the necessity for conscientious representation on the executive committee during the years of formation of a new student government.

Judy Walk

Senior President

Barbara Englert

I am presently recording secretary of the Student Polity. Last year I was sophomore editor of the yearbook and was a member of the Art committee of the Executive Committee for two and one half years.

I think that next year's senior class will have a lot of problems to face due to the move to Stony Brook. I think also that it will be very important for us to be more active with both the concern of our class and with those of the entire student body. If I am elected, I will strive to fulfill to the best of my ability all the responsibilities of class president and Executive Committee member, and I hope that my classmates will take an active part in helping to solve some of the many problems which will face all of us.

Jack Czorniewicz

ATTENTION

Due to numerous safety hazards ensuing from conditions of construction at the Stony Brook campus, students are requested not to visit and explore the campus without consent and arrangement by the University for supervision by a construction supervisor.

Students requests can be initiated through the Dean of Students Office.

ELECTION CANDIDATES

Polity Rep

Treasurer

Sara Leibowitz

Dennis Golin

Class of 1963
Office: Senior Class Polity Representative

I am a student of sociology and hope to study social-psychology at graduate school. I have been secretary of The Council for Political Inquiry for two years. My hopes for next year are geared toward raising the level of participation and enthusiasm of specifically my class. They should be the leaders on the new campus and much more individual vigor will be needed to sustain the new college atmosphere that should arise from a more resident community. As the senior class on a new campus, we will be setting new precedence which will have a lasting influence.

Caryl Sullivan

If elected Senior Class Representative I will strive to keep the split campus situation from splitting the student body into two separate groups. Although it might not prove practical to have transportation between campuses every day for extra-curricular activities I do think it should be provided for as many club meetings and events as possible.

As a class officer I will strive to develop with other officers an effective system of communication so that the members of the senior class will be well informed about all the special events of the senior year. I will also be open to your suggestions and ideas concerning the student government.

Howie Schneider
Secretary

Linda Hoffman

I came to Long Island Center as a transfer from Albany State in September 1960. Throughout my four years at Massapequa High School I was active in Student affairs. I served as Secretary-Treasurer of the Girls' Athletic Department, Treasurer of Leaders Club, Treasurer of the General Organization and hostess for the Herald Tribune Forum. I was also active in music, German Club, and the Student Office Squad.

Commuting to L.I.C. has created problems as far as activities at L.I.C. are concerned. However, living at Stony Brook next year, I feel I will have time to work actively for the Senior Class and the rest of the Student body. I would like to be elected Secretary of the Senior Class so that I can do all I can to make our school the best possible.

Junior Candidates President

Charlie Kaars

I would like to take this opportunity to tell the members of the class of 1964 of my qualifications for, and plans for carrying out, the office of class president.

Though I have not served in any official capacity since I have been at the Long Island Center, I had three years of experience in student government in high school. This year I was appointed to the Athletic Advisory Committee. This experience is not great, but I feel that is sufficiently greater than my opponents to make me better able to carry out the office of President.

My proposals are these:

1. I propose that the Student Polity and all other campus organizations become more active in finding people interested in the respective fields of interest.

2. I propose that arrangements be made for students living here in Oyster Bay next year to get any and all meals at Stony Brook. This will make attendance at cultural and social activities at Stony Brook more feasible for Oyster Bay Students as they will be able to stay at Stony Brook after classes (if any classes for Oyster Bay residents are held in Stony Brook) and even overnight with no loss of meals.

Charles Mindel

In this period of change in the history of our school I believe next year's Junior Class will be in the best position to adapt the best of the old traditions to the needs of the new institution as State moves to Stony Brook. The school as we knew it when we were Freshmen is gone, we saw some of the good points and many of the bad points in our small school. I believe one of these bad points is the Polity form of Government as it exists here.

The Polity form of government is adequate for a school of a few hundred students if operated correctly, but not for a college of 575 or for next year's student population of 800-900. I object to this form of government and the Executive Committee that controls it and I believe many others feel that way.

Although I was never elected as a class officer in High School I worked closely with the political organizations and clubs. My political interest has been carried over into College and I am deeply concerned about the future of our expanding institution. I consider this to be my prime qualification. With your help we can avoid making many of the mistakes that were made in the past.

Sophomore President

Joseph Marchese

My name is Joe Marchese. I am running for the office of President of the class of 1965.

As far as qualifications go I can only say that I have had some experience in leadership and organization, having been financial editor of my high school newspaper and on several special events committees.

My platform is simple. I will work to the best of my ability to promote the interests of the sophomore class. I will try to hear all your opinions and in turn voice them in the Executive Committee meetings. In short, I will try to represent you.

Steve Beitler

Running for the post of class president is no trivial thing. The office involves the placing of one's self in the position of varied types of students and voting as the majority of them would. I believe that I can do this well because of the wide circle of my acquaintances and the fact that I have been interested enough in student government to go to previous Executive Committee meetings in order to get an understanding of how it is run and what it does. I have also been interested enough to keep, not only the constitution of the Polity but also those of the major clubs of the school, to better understand how the students of this college prefer to be governed.

Mary 'Kelly' Callahan

I am of the opinion that a unified class is a prerequisite for a unified student government. If the polity is to function in its full capacity it must have the backing of the individual classes. I hope to be able to contribute an active sophomore voice to the Student Polity to help it further its own objectives as well as those of our own class.

I will look into the matter of the student identity cards which we paid for at the beginning of the year but have never received.

All of us want an active and respected student government; I will do my utmost to attain this goal.
