Friday, May 18, 1962

## Madrigal Concert

Pictured above is a scene from the Madrigal group performance given in the Coe Hall Lounge on Wednesday afternoon, May 16, 1962. The group, led by Mr. Frank C. Erk, Chairman of the Biology Department, gave very enjoyable renditions of English, French and Italian madrigals. In addition to the choral performance was a clarinet duet with a piano accompaniment.

Madrigals are secular vocal compositions. The group has been meeting informally and practicing once a week for most of this semester. The vocal group, composed of Sopranos Monica Findels, Eileen Hicky, Lana Shearer and Carol Williamson, Altos Barbara Pedersen, Judith Stout and Merrily Waide Tenors Burt Marks, Victor Neuwirth and Glenn Sharrock, Basses Frank Erk, Tony Hawk and Arthur Whelan gave fascinating performances of "Now is the Month of Maying," by Thomas Morley, "Mon Coeur Se Recommande A Vous," by Orlando di Lasso, "In these Delightful, Pleasant Groves," by Henry Purcell, "The Silver Swan," by Orlando Gibbons, "O Occhi, Manza Mia," Orlando de Lasso, "O Stay Sweet Love," by John Farmer and concluded to an applause rendering version of "Matone, Mia Cara" by Orlando di Lasso.

The clarinet duet was "Concerto, Op. 113, No. 2 by Felix Mendelssohn, and was performed by Bert Marks and Carl Baron, on the Clarinet, and accompanied by William Mostler on the Piano.

## Spring Formal

Get your tickets for the Spring Formal to be held Friday, June 1, 1962 at Coe Hall. The price is \$2.50 per couple and the tickets are on sale in the cafeteria.

## Senior Plans

The faculty and student body of Long Island Center should be interested to note the high caliber of the positions that the Class of '62 are obtaining for the coming year.

Some of the Seniors have elected to further their educations at graduate school: Madeleine Fischer and Bill Margulies at Brandeis, Marv Rosenberg, NYU; Glenn Sharrock, University of Chicago; Michael Davidson, Princeton; Judy Stout, Brown; Burt Marks, Carnegie Tech; and Judy and Les Paldy, University of Maryland.

Two engineers have obtained positions in industry; Jim Kelly at Sperry Gyroscope, and Jerry Seaman at General Electric.

Other Seniors have obtained teaching positions; Ann Mellinger, Jim Donady and George Gurney, Syosset High School; Connie McCormack, Carol Williamson, Huntington High School; Art Whelan, Islip; Janet Tucker (Mrs.), Babylon; Muriel Benter, Island Trees; Lana Shearer, Jamesville Dewitt High School; Charlotte Wright (Mrs.), Walt Whitman High School; Kathleen O'Neill, Massapequa High School; Judy Smith (Mrs.), Huntington High School, and Mary Ann Mills, Massapequa High School.

Other members of the class are currently being considered for positions or have not made a final decision as to their plans.

Regarding placement, there are still many listings for teaching positions in all fields, all over Long Island. Mr. Gardner also urges that Seniors and Graduates complete and keep their folders up to date since the facilities of the Placement Office are continuously available to Alumni of Long Island Center.

## Attention

Attention Students!!  
Return all Questionnaires to Miss Capone today

## Bio Chairman Takes Leave

Mr. Frank C. Erk, Chairman of the Department of Biological Sciences, will be on leave of absence for the first semester of the 1962-63 academic year, it was learned today.

During this period of time Mr. Erk will be working at Stanford University as a member of a four-man team responsible for the final revision of one version of the Biological Sciences Curriculum Study materials (known as the BSCS program) which are being prepared to stimulate improvement in the secondary school biology instruction. Along with faculty members from Harvard, Michigan State, and the University of Utah, he will be particularly concerned with the text, laboratory manual, and teacher's guide for the blue version of BSCS. These books will be published by Houghton-Mifflin in the fall of 1963.

The BSCS program is supported by funds from the National Science Foundation, and over 4 million dollars has been invested in various phases of the program thus far. The new BSCS courses were initiated during the summer of 1960, and were revised during the summer of 1961. Mr. Erk has been associated with the program since the first summer. Prior writing conferences have been held at the University of Colorado, Boulder.

Over 65,000 students in various parts of the nation have participated in the experimental phases of the BSCS courses. Their responses, and those of their teachers, have been sent to BSCS headquarters on a regular basis, and this feedback provides the authors with guidance for the revision of the materials.

## Grant-in-Aid

The Statesman has learned that Mr. Benjamin Nelson, Professor of history and sociology, has received a Grant-in-Aid from the Research Foundation of the State University for the purpose of studying "Conscience, casuistry and the cure of souls in western society and culture from 1500 to the present; further studies on their relations."

In 1944, Mr. Nelson received a Guggenheim Fellowship for the study of aspects of the above theme and, in 1949, continued this study with a book called "Ideas of Usury-From Travel Brotherhood to Universal Otherhood" published by the Princeton University Press. Since 1949, he has been concerned with the exploration of the connection between conscience, casuistry and the cure of souls in the modern era. He is primarily concerned with the ways in which these links have been weakened and how the changes have been expressed in changes in ideas about self and ideas about definitions about good

(Continued on Page 4)

## GRADUATION

Commencement ceremonies for the Class of 1962 will begin at two thirty o'clock, Sunday afternoon, June 3rd, on the lawn adjacent to the Italian gardens. At that time, the candidates for Bachelor's degrees will march in a procession from the Great Hall, where they will have robed earlier.

## Summer Courses

The administration has announced that the following courses will be given in the 1962 summer section:

Biology 35 (Field and Theoretical Ecology), 6 hours, no tuition for biology majors. This is a "course which examines living organisms from the point of view of the environment. It includes application of single and holocentric approaches to evolutionary processes, a study of structure and function as a response to physical and biotic factors, and a study of methods used in classifying organisms, environments, and ecosystems."

English 37 (Methods and Materials), 3 hours, \$20.00 per semester hour. This course is "an examination of the intellectual grounds on which the teaching of literature and composition in secondary schools rests. The problems involved in communicating genuine literary values to high school students are explored through investigating the reasons for and applications of various methods and materials."

Education 42 (Practice Teaching) 6 hours, \$20.00 per semester hour.

Social Science 39 (Methods and Materials), 3 hours, \$20.00 per semester hour. This course "emphasizes methods and materials appropriate to the teaching of a broad range of subject matter in the social sciences at the high school level."

Activities in the graduation program will include: an address by Thomas Hamilton, President of the State University; greetings from the president of the Class of 1962, Henry Liers; the awarding of the valedictory award; songs by the State University Chorus; and the granting of the degrees to the seventy-five candidates.

Present at this second graduation in the history of Long Island Center will be: members of the State University system; members of the Board of Trustees; faculty members of Long Island Center; parents and friends of the graduates and probably a number of undergraduates.

Following the formal graduation exercises, there will be an informal reception for the graduates, their families and friends at the Tea House. It is hoped that faculty members will attend at least the first half hour of this tea, so that students might say last good-byes.

In case of rain, activities will take place in the Cafeteria, and only those persons showing tickets will be admitted into the building. Guests not having tickets will be shown to the Gym, where microphones will carry the procedures taking place in the Cafeteria.

Ushers for the afternoon's events will be members of next year's Executive Committee of the Polity.

New Statesman Editorial Board from left to right; Dave Buckhout, Photography Editor; Ruthann Brody, Copy Editor, Liz Lench, News Editor; Linda Dear Associate Editor; Judy Shepps, Editor-in Chief and Henry Ostman, Sports Editor.

MR. JAY WILLIAMS ..... Co-Faculty Advisors

Edward Abramson, Grace Fukahara, Phyllis Hauben, Linda Hurwitz, Judith Intrator, Dianne Lawrence, Jack Matrice, Barbara Rippel, Dorothy Robinson, Rachelle Silverman.

All unsigned editorial matter reflects the opinion of the entire Editorial Board.

In this, the last Statesman editorial of the 1961-62 academic year, we will focus on the current situation concerning the move to Stony Brook. Much has been said with regard to the physical details of the move; what resources will be available and the breakdown of students on each campus. The general plans seem pretty clear, but the details, some quite close to the immediate interests of the student body, seem to be quite hazy. We feel that it is time that these details should be brought to light.

First, what exactly is the program situation for next year? What courses will be offered and what selection will the student be allowed? It does not seem as though there has been any attempt made to solicit the course preferences of the student body and it also does not seem as if there will be pre-registration this year. This is a particular problem for the Biology Majors, who know only that they will be commuting between campuses. These students have no idea of what electives will be available next year, either course or time wise. The upperclass majors will be commuting to this campus for at least two days a week and consequently their time available for electives is limited to Monday, Wednesday and Friday. It seems that it might have been a good idea for the administration to have solicited the course preferences of these students before next September comes and they find themselves unable to register for courses that they had counted on taking, due to scheduling problems. Is it possible that in the last minute rush to have all plans finalized, the student has been forgotten?

A second question is- When will school open in September? When is Orientation? When can the resident students move into the dorms? A reporter for this newspaper has been diligently trying to find out this information from the office of the Assistant to the Academic Deans and has, up to the time of going to press, had no luck in getting any information.

A third question concerns the resident portion of the student body. What will the meal plan be for next year? It has been suggested that perhaps there will be some option as to the number of meals a student can get per week in the cafeteria. When will this information be available?

\* \* \*

We wish to take the opportunity to wish those students who will graduate in June much happiness and success in the future. To those undergraduates who will be returning in the fall, we wish you an enjoyable summer and hope to see you in September.

## To The Polity

To College Community;  
(The following is a copy of the platform I have extended as my position as Editor-in-Chief of The Statesman).

"As a candidate for Editor-in-Chief of the Statesman, I submit the following platform:

1 - To provide the best coverage of campus events possible by initiating a high level of interest among the student body. I will attempt to do this by organizing a series of lectures to be given by professional newspaper reporters to the interested members of the College Community. I feel that the only way a newspaper can function effectively is by having the interest and support of the entire community. If neither the interest or backing is evident next year, I propose that The Statesman should be abolished;

2 - To provide a medium of common interest between the Oyster Bay and Stony Brook students. To this end, I hope to enlist the support of Oyster Bay students in covering Oyster Bay news and features. It is intended that this contact be made with the incoming students this summer;

3 - Because of the increased student population, I propose that all of The Statesman issues, whenever possible, be eight pages in length. This will provide a page for the Polity, space for national advertisements, as well as Oyster Bay and Stony Brook news.

As experience, I offer a years work as Associate Editor and two years work as a reporter.

To achieve the above ends, I offer as my editorial board the following people whom I believe sincere in their desire to work for the good of The Statesman: Associate Editor - Linda Dear Copy Editor - Ruth Ann Brody Photography Editor - David Buckhout

News Editor - Liz Lench Sports Editor - Henry Ostman with Marty Frank and Alice Paster continuing in their respective positions of Business Manager and Exchange Manager."

Sincerely  
Judy Shepps

## Coming Up

Friday, May 18  
4:00 p.m. -- Physics Seminar, Dr. Douglas M. Van Patter of the Bartol Research Foundation of the Franklin Institute will speak on "Studies of Properties of Nuclear States from Inelastic Particle Scattering." Dome 8  
Monday May 21  
Final Examinations Begin. Good Luck to all!!  
Tuesday May 22  
5:00 p.m. -- Chemistry Seminar, Dr. J.Y.H. Chau of the Long Island Center will speak on "Problems in Raman Spectroscopy" Dome 9  
4:00 p.m. -- Physics Seminar, Professor Max Dresden of the University of Iowa will speak on the "Conflicts between Abstract Field Theory and High Energy Physics" Dome 9  
Friday June 1  
10:00 a.m. -- Graduation Rehearsal. All Seniors, Back Lawn  
8:30 p.m. -- Spring Formal, Coe Hall  
Sunday June 3  
2:30 p.m. -- Graduation, Back Lawn of Coe Hall

## Breakage Cards

Starting May 21, 1962, the Business Office will begin refunding deposits for laboratory breakage cards.

Refunds will be made between the hours of 8:30-11:30 a.m. Only those students who return the card will be eligible for the refund.

## Faculty Spotlight

## On Practice Teaching

by Art Whelan

The subject of the student teaching column for this issue is one of S.U.'s top senior biology students, Judy Paldy, who took part in the practice teaching program last fall at Friends' Academy in Locust Valley.

As with all biology majors at S.U., Judy has an extensive laboratory schedule, and so she found the brevity of the practice teaching program of particular benefit, although she feels that with a maximum of teaching hours it is possible to have a really representative classroom experience. As for her own student teaching experience, Judy had this to say: "Fortunately and unfortunately, I did not have many hours of actual classroom teaching." Fortunately, because the curriculum she taught was mostly on the plant kingdom, and her background in that area has been rather limited. The biology methods course she had taken attempted to remedy the situation by presenting a sweeping, introductory course in botany, but in order to teach a lesson properly, she had to supplement as well as review her information. This was a very time-consuming task, even for the limited teaching period. But the limited teaching span was unfortunate in that just as she began to feel at home in planning lessons and in managing the classroom situation, her student teaching session came to an end. She did have many hours of contact with students in the laboratory period, but the corresponding classroom teaching was brief.

Biology is a subject that most high school students find interesting, at least insofar as it pertains to themselves. But Judy found that they have difficulty, and understandably so, in becoming interested in such things as algae and fungi and their life processes. In this respect, she found it difficult to prepare lessons which would hold the attention of the students.

Judy's plans call for graduate study rather than teaching, but she found the student teaching experience to be worthwhile and enjoyable. This enjoyment of practice teaching by students who have no plans to teach is a facet of the program which is usually overlooked but one which is worth noting.

## Notice

Will all people who are interested in receiving copies of The Statesman next year, and who will not be at this school, please leave word with Judy Shepps either at the Women's Dormitory or at the Mail Room. Due to the increased numbers of people wanting copies to be sent, there will be a charge of fifty cents per year per person in order to cover mailing costs.

Under the spotlight this issue are Mr. Robert Birnbaum and Mr. Thomas A. Post, Assistant Directors of Admission to Mr. Tilley. Both have been here since September, and as part of their duties take care of processing applications for admission and keep high schools informed about the Long Island Center.

Robert Birnbaum

Mr. Birnbaum received his B.A. in Psychology at the University of Rochester, and studied briefly at American University during his service in the Army, where he also spent time overseas. He is presently studying for his Masters in University Administration at Columbia. Mr. Birnbaum is married, the father of an eight-month old son and resides in Commack.

Thomas Post

Mr. Post received his B.A. at Colgate, studied at Columbia, and is working toward his Ph. D. in American History at N.Y.U.

Before coming to State U., he taught history at Walt Whitman High School, the Professional Children's School in New York City, and Sarah Lawrence College. He was also College Director of the Co-operative Bureau of Teachers in N.Y.C. Mr. Post is married, has a daughter, and is presently living in Huntington.

## Summer Job

Boys interested in Summer Jobs concerned with the move to Stony Brook see Miss Capone, Assistant Dean of Students

## Final Exam - Revisions

The following changes have been made in the final examination schedule.

Monday, May 21	Course	Section	Place
9 a.m.	Humanities IIIA	-	Dome 13B
1:30 p.m.	Chemistry 31	-	Dome 10B
Wednesday, May 23			
9 a.m.	Physics 33	-	Dome 10A
	Biology 41	-	Dome 12B
	Biology 47	-	Dome 10B
	Mathematics 23	A, C, D, B	Dome 8
			Dome 9
1:30 p.m.	Humanities I	B, E, F, G, H, L	Gym
	Humanities I	A, C, D, J, K	Gym
Thursday, May 24

Friday, May 25			
1:30 p.m.	English 39	-	Dome 8
	Philosophy 35	-	Dome 11B
Tuesday, May 29			
1:30 p.m.	Mathematics 37	All	Dome 9
Thursday, May 31			
1:55 p.m.	Social Science 33	All	Gym

# Stony Brook Impressions

Many of us here have wondered what living in Stony Brook will be like and how the college and its students will be received by the sedate Stony Brook community. The only way to find out is to ask -- so we did just that, and to our surprise people answered!

On the whole the remarks were favorable with a little ill wind blown by the elderly members of the community. We visited several stores in the area. For example, the Woodbox (hunchonette), the Gift Shop, and the Three Village Liquor Shop. The people to whom we spoke pretty much all agree that their interest in us is not as customers but rather as new "residents" of their community. They feel we will be an "addition to the community" and are not worried that we will in any way destroy or mutilate the beauty of their community. As the owner of the Gift Shop said "Give them (students) credit enough to keep to high standards and they will because of their innate pride -- you get from people pretty much what you expect."

We then took to the street to get "a man on the street's" opinion. Again the residents and town workers were not too skeptical

about our shattering their "closed" town. The most complimentary remark was made by a distinguished looking man who felt that the beauty of the community would be enhanced by "especially the girl students."

Most of the younger people we spoke to were looking forward to having a college in Stony Brook although none had any intention of attending. Two students, one from Pratt and the other from Suffolk Community, knew little about our school and felt it "was too hard to get into."

The only people who seemed to have any visible objection to our "invasion" were the elderly residents. Most of them had no comment or didn't care, but one woman wanted to know why we didn't ask her what she thought of our coming before we came. When we asked if this meant she didn't want us she refused to comment.

To give one idea as to the type of town to which we are moving, I quote from Abe Lincoln. This quote must be representative of the community feeling since it is printed on every trash can in town. "I like to see a man proud of the place in which he lives." Stony Brook here we come, --- ready or not!

Post Office --- The center of Stony Brook's famous reconstructed village, the Post Office stately crests the hill upon which the village is located.

Hercules --- Across from the village green the figurehead from the SS Ohio stands a favorite attraction for anxious young maidens. Local legend says that one kiss on the lips of Hercules will bring, within two years, a dashing, romantic husband.

Progress is again picking up and great advances are being made. Occupation of the new campus next fall is no longer a dream. See you, then, in Stony Brook.

# Frosh Statistics

The incoming Freshman class will be comprised of about 340 students, many transferring from Community Colleges. Mr. Tilley Director of Admissions, said that the class will have many more students from areas other than Long Island than ever before. This is due to the reorientation of our college as a residential school. Mr. Tilley even expects a few students from other states and countries. The admission office has sent out about 60% more applications than in previous years but they are experiencing difficulty compiling a class. This is due to a decrease in the number of New York State High School graduates. It is due, in part, to the adverse publicity we received at the beginning of the year.

On a basis of about 55% it appears as if the new class will follow precedents set by previous entering classes. About 1/4 of the students will be in the engineering program, 1/4 in the liberal arts school and the remainder will enroll in the B. S. program. Of those enrolling in the liberal arts program most are planning to major in either English or History. A majority of those entering the B.S. program will major in Mathematics and Biology. As usual the majority of students will not be enrolled in the education program. More than half of the entering students will have Regents scholarships. There will be about 3 men to every 2 women.

# C&C

The final event sponsored by Curtain and Canvas for this scholastic year was its annual visit to the American Shakespeare Festival where this year Henry IV, part 1 was performed. The play presented in Stratford, Connecticut, was viewed by State students on Saturday, May 5.

The first of Shakespeare's seven historical plays, Henry IV consists of two interwoven plots, the first dealing with the King and his relationship with his son Hal. The other plot concerns Prince Hal and Falstaff. The characters in this play are quite alive especially Hotspur, Prince Hal and Sir John Falstaff and the roles were well acted under the direction of Douglas Seale.

In preparation for the trip to the Shakespeare Festival, Mr. Ludwig, professor of Humanities, gave a lecture on the play in the Student Lounge on May 3.

# Peace Corps Opportunities

The Peace Corps is now offering positions for recreation and physical education instructors as well as teachers on the elementary level.

There are positions open in Tunisia, Jamaica, Venezuela, Ceylon, Iran, Thailand, and Ivory Coast for physical education and recreation leaders.

Immediate positions at the elementary level are available in Africa (Federal Republic of Cameroon, Liberia, Somalia) and in the Far East (North Borneo-Sarawak, Philippines, Pacific Trust Territory.)

For additional information, inquire at the Placement Office or write to:

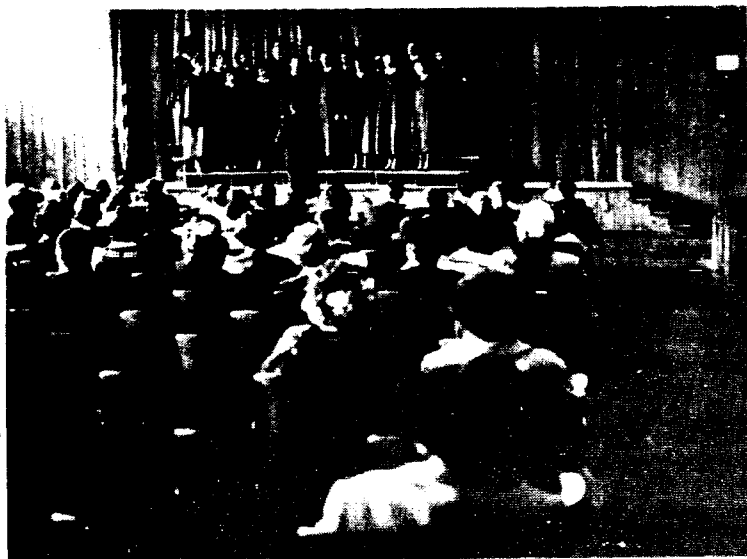

Professional, Technical and Labor Division  
Office of Public Affairs  
Peace Corps  
Washington 25, D.C.

# Quote

Practical politics consists in ignoring facts.

Henry Bbooks Adams

# Social Debut

The Chamber Singers directed by Mr. Bialosky performing for a benefit for the Setauket Library in Setauket, May 6, 1962. Also on the program were the Chamber Players (a Recorder group). This was the first public performance for both groups and was well received by the audience.

Margot Fuhrman and George Barber in a Duet at the Setauket Concert.

Recorder Group (The Chamber Players) during its first public appearance at the Setauket Concert, May 6, 1962.

# Miss America Pageant

# Roving "I"

The "Miss New York City" Finals will be scheduled for the early part of July and Preliminaries are now being held weekly. The winner of the "Miss New York City Contest" will receive \$1,000 scholarship from the Pepsi-Cola Bottlers of New York City; and the first and second runners-up will each receive \$250.

In addition, the Philco Corporation is offering \$500 to defray cost of her wardrobe to be worn while competing in the "Miss America Pageant" in Atlantic City next September. Also, they will present the winner with a T.V. set to be named in honor of the Queen.

Available are several applications with Official Rules of the "Miss America Contest." For further assistance and information, please call OREGON 9-6440.

(The following question was asked of Freshman only)

Question: What is your impression of the first year of college?

Mary "Kelly" Callahan: It has been a time when many deep ties have grown; an affection for our surroundings and friendship with many great people have arisen.

Mrs. June Kelly: It's a challenge; Hard work but very rewarding.

Andrew Courtney: That time moves faster than you ever thought it could; That you have capacities you never thought you had; That you become aware of ideas which challenge, if not dumbfound you.

Joseph Marchese: I wish to commend the honesty of the Dorm Students who, since Open House, I wouldn't trust with the time of day.

Mina Lungen: It's been very exciting

Marsha: It really swings.  
Lynn Kane: Weecool

# Seniors Edge Out Profs

Mr. Goldfarb hitting a homer at the faculty - student Softball game, Tuesday May 15, 1962.

On Tuesday, May 15, 1962 the annual Faculty-Senior Softball game took place on the Athletic Field. In a hard played, often tied, nine innings, the Seniors emerged on top end of a 14-13 score. The victors were led by the brilliant, though quite often erratic, pitching of Marty Samoloff. Mr. Robert Birnbaum, twirler for the Faculty, pitched quite well also, though not as erratically but suffered sometimes from weak field support.

The Faculty had the seniors shut out for the opening innings, and for a while it seemed as though there was to be another "surprise" on campus this year. The seniors finally came to life behind the hard hitting of Hank Liers, Les Paldy, Bill Niciu, Lance Lessler, Al Katz, Bert Marks, Merv Rosenberg and "Old Marty." The score was 5-0 before the Seniors got over their awe of the opposition and, by the seventh inning (the scheduled termination of the game) the seniors had forged ahead to lead 8-5 and the faculty had drawn upon their reserve energy to tie it up at eight all. The score remained this way until the ninth inning when the Faculty, comprised of Messrs. VonMechow, Goldfarb, Kahn, Post, Birnbaum, Fox, Schneider, Lepley and assisted by students Schneider and Kelly, rallied to go ahead 13-8. Not to be defeated, and with the stimulus of fighting for the honor of the Senior Class, "our boys" drove across six runs to emerge victorious in the last of the ninth.

## Final Exam #s

All students should see the registrar before Friday, May 18 to obtain an examination number for the final examination period. Students taking English I should include on their examination number card their section and the name of the instructor.

# Sports News

## Fourth Annual North Shore Invitational Regatta

This the big race on our home course, in Oyster Bay Harbor and this year the participating teams included; Fordham University, Iona College, St. John's University as well as our Soundsmen.

The order of finishing was Fordham, Iona and State, St. John's, by not showing up, forfeited, and placed officially last.

### The Dad Vail

This race, held annually by the Dad Vail Rowing Association, is to encourage rowing in the smaller colleges, and among the larger ones with small rowing budgets, is an attempt to provide more evenly matched competition than would be possible otherwise.

This event was won by Georgetown, seconded by Marietta with a third by Trinity.

The Soundsmen placed last in their heat, however timewise all was not so bad. State finished in this manner ahead of 7 of the 21 participating teams. If we had been in another heat, during the qualifying races, we would probably have been in the afternoon races.

### Intermurals

Mike Levy was the final victor in the men's singles competition in Badminton. This was the concluding event in the intermural program.

### Just an Error

The editor of a small town weekly was severely criticized because of an error appearing in his paper, and in the next issue he had this to say about it:

"Yes, we know there were some errors in last week's paper. We will further agree that there were some errors in the issue of the week before, but before bawling us out too unmercifully about it, we want to call your attention to these facts: In an ordinary newspaper column there are 10,000 letters, and there are seven possible wrong positions for each letter, making 70,000 chances to make errors and several million chances for transpositions. There are 48 columns in this paper, so you can readily see the chances for mistakes. Did you know that in the sentence, 'To be or not to be', by transpositions alone, 2,759,022 errors can be made? Now aren't you sorry you got mad about that little mistake last week?"

### GRANT-IN-AID

(Continued from page 1)

and sources of right such as those illustrated in Existential philosophies and psychoanalysis. This includes a study of the relations between formations of moral and legal responsibilities of groups and the end is the way in which individuals actually relate to options.

Mr. Nelson's studies are now primarily concerned with the period from Descartes and Pascal to the present.

# Biology Seminars

Florence Hershberger giving a talk on her senior project at the Senior Biology Seminar, Monday, May 14, 1962.

# Polity Budget '62-'63

Total Budget 1962-1963

Organization	Standing of budget (f.a.-formal appr.)	Amount
Astronomical Society	f.a.	396.50
Athletics	f.a.	4890.00
Chemical Society	f.a.	311.00
Council for Political Inquiry	f.a.	350.00
Cultural Committees		
Art		1000.00
Movies		480.00
Music		1225.00
Curtain and Canvas	f.a.	1925.00
Radio Club		115.00
Specula	f.a.	3748.00
Statesman	f.a.	3034.00
Polity Funds Account		1700.00
Total of Organization Budgets		18775.00
Savings Fund		2125.00
Reserve Fund (10%)		2300.00
Total Budget		23200.00
Activities Fee		
Expected Undergraduate enrollment		800
Proposed Activities Fee		\$29/student

### Savings Account for the 1962-63 Budget

The 1962-63 Budget will include a \$1950 Savings Account. This amount together with this years budget which should be about \$1200 should be enough to cover any new expenses for the new year. The Budget Committee foresees that these may include monies for the following: State Troopers, custodial fees for the basketball games, an insurance policy for the use of the state buses, cost of drivers for the buses, increased participation in the Curtain and Canvas Program etc.

Re: Petitioning the Budget Article IX, Polity Constitution Article IX

2. Legislation may be enacted in the following manner:
  - a. By a majority vote of the quorum;
  - b. By the Executive Committee subject to the following conditions
    - (1) Three-fourths of the Executive Committee must approve.
    - (2) Within ten days following action by the Committee copies of the legislation shall be publicly posted in prominent places.
    - (3) If, during the following seven days, a petition of objection is signed by one-fourth of the Polity and submitted to the Secretary, the Moderator must call a meeting of the Polity within two weeks to re-examine the question. If no such petition is received within the specified time, the legislation shall become law.
3. Normally all legislation shall go into effect seven school days after notification of the legislation passed.
