1:15-5:00 pm
Location: Level 2, Clinical Skills Center

Simulation of Office Urgencies and Emergencies
Stephen A. Vitkun, M.D.,M.B.A., Ph.D.
Linda M. Cimino, Ed.D., M.S., CPNP, ANP, CHCQM, CCRC

In this interactive full-scale simulation (using a patient simulator), working in groups, your team will be asked to evaluate, diagnose and provide initial treatment for simulated clinical situations that occur in the office or clinic and will participate in an evidence-based faculty discussion of the evaluation, diagnosis and treatment of the patients in all of the scenarios.

Upon completion of this session you will be able to evaluate, diagnose and appropriately manage your patients with these diagnosed conditions as recommended by the evidence-based literature and national guidelines.
