STATE UNIVERSITY OF NEW YORK AT STONY BROOK

August 15, 1988

Distinguished Lecture Opener

Maya Angelou To Kick Off Series

Maya Angelou, best noted for her autobiographical work, *I Know Why the Caged Bird Sings*, will speak on "The Importance of Literature in One's Life" and the "Positive Aspects of Multi-Cultural Diversity on a College Campus" August 30 on campus.

"An Afternoon with Maya Angelou," which is free and open to the public, will be held at 4 p.m. on the Main Stage in the Fine Arts Center as part of the New Student Convocation and the opening presentation of the University Distinguished Lecture Series, co-sponsored by Stony Brook's Office of the Provost, *Newsday*, and the Department of Student Union and Activities.

Angelou's account of her youth in *I Know Why the Caged Bird Sings*, one of her four autobiographical best-sellers published by Random House, was aired as a two-hour TV special for CBS in 1979. Angelou has also published four books of poetry and written articles for *The New York Times*, *Redbook*, and *Cosmopolitan*. *The Ladies Home Journal* awarded her "Woman of the Year in Communication" and listed her among the magazine's "Top 100 Most Influential Women."

With just a high school educa-

tion, Angelou has received many honorary doctorates as well as the Chubb Fellowship from Yale. In 1981 she was appointed the first Reynolds Professor of American Studies at Wake Forest University.

Angelou wrote the 1983 stage play *On A Southern Journey* and won the coveted Golden Eagle award for a Public Broadcasting Service (PBS) presentation titled "*Afro-American in the Arts*."

The University Distinguished Lecture Series was launched as a cooperative effort with *Newsday* in 1982 to give students, faculty and the surrounding community the opportunity to hear and see prominent scholars, artists and public officials.

Additional speakers this fall will include Arthur Miller, Professor of Law at Harvard Law School and legal consultant on ABC-TV's "*Good Morning America*," who will address the issue of "Media and Privacy" in conjunction with a daylong Censorship Conference on September 28.

Previous speakers of the series include Lerone Bennett, executive editor of *Ebony* magazine, Ramsey Clark, former attorney general of the United States, and Donald Woods, subject of the film "*Cry Freedom*" and outspoken critic of apartheid.

OPENING the Distinguished Lecture Series for the fall will be writer Maya Angelou who will speak here August 30.

Former Grumman Chairman Joining Faculty

John C. Bierwirth, former chairman of the board of the Grumman Corporation, Bethpage, has joined the university's faculty following in his retirement from the company August.

He is the first faculty member to hold the title of "Stony Brook Professor," said President John H. Marburger in welcoming Bierwirth to Stony Brook.

"The title is indicative of the enormous respect Stony Brook has for Mr. Bierwirth and reflects the scope of his activities, which will cut across the entire University," noted Provost Jerry R. Schubel.

Bierwirth, who joined the Grum-

man Corporation in July 1972 as vice president, finance, was elected president and chief executive officer in November 1972. He was elected board chairman on January 1, 1976. He is continuing with the international, diversified aerospace concern as a senior management consultant. A graduate of Yale University where he majored in history and of Columbia University's School of Law, Bierwirth will be sharing his expertise and experiences with Stony Brook students in a variety of subjects including foreign affairs, ethics, education and environmental protection.

A native Long Islander, Bierwirth

is active in environmental causes, chairing the Nature Conservancy's Long Island Critical Areas Program and serving as a member of the governing council of the Wilderness Society.

Bierwirth is a governor of the United Nations Association of the United States of America. He is a member of the board of trustees of the Yale-China Association and a past director of the Foreign Policy Association. He is also a member of the board of trustees of the Center for the Study of the Presidency.

In May, 1983, President Ronald Reagan appointed Bierwirth to an

Three Win Major National Honors, Financial Awards

Three Stony Brook faculty members earned major awards this summer that carry sizable financial rewards. Here's more about those who came up in the winner's circle:

John G. Fleagle, a paleontologist and professor of anatomy in the School of Medicine, is one of 31 recipients to receive a 1988 MacArthur Fellowship.

Among the winners were a puppeteer, a jazz drummer and a farm policy specialist. Recipients receive awards ranging from \$150,000 to \$375,000 over five years to use as they wish; Fleagle received \$255,000.

Fleagle studies the evolution of animals closely related to humans, both in the jungle and the laboratory. He relates this research to the fossil remains of their progenitors that lived millions of years ago. He has

degree from Yale University and a master's and Ph.D. from Harvard University. He has been teaching at Stony Brook since 1975.

The John D. and Catherine T.

- NIH Awards Two Major Multi-Million Dollar Grants
- Anatomy Professor Named MacArthur Winner

studied his subjects in their natural habitats in Southeast Asia, Egypt, Argentina and the Pacific island of Suriname.

He is currently doing research in Madagascar.

Born in Burlington, North Carolina, Fleagle received a bachelor's

MacArthur Foundation created the "no-strings" MacArthur Fellowships in 1981 with the aim of freeing exceptionally talented people from economic constraints to develop their potential. Recipients are recommended by 100 anonymous nominators around the country.

Eckard A. Wimmer, chairman of the Department of Microbiology, has received a MERIT Award (Method to Extend Research in Time) from the National Institutes of Health for his work on poliovirus.

The awards are given to selective investigators who are leaders in their fields based on a review of their research by an NIH advisory council. The award funds their research for five years plus an additional three to five years. In Wimmer's case, he will receive about \$3.5 million.

BOOKING ON EXCELLENCE: President John Marburger (right) joins associate librarians (from left) Jacob Lipkind and Doris Williams at a recent reception honoring the pair along with other President's Award for Excellence winners. The gathering took place at Shorewood.

Hanes Is Elected To National Post

Carl E. Hanes, Jr., deputy to the president for special projects, has been elected treasurer of the National Association of College and University Business Officers (NACUBO) for 1988-1989.

As treasurer, Hanes will serve on NACUBO's Executive Committee, which directly oversees the association's role as a clearinghouse on sound management and financial administration practices for more than 2,000 colleges and universities nationwide. NACUBO will gather and share information on crucial issues affecting the higher education community and encourage, set and promote professional standards for college and university business leaders across the country during Hanes' tenure.

A past president of the Eastern Association of College and University Business Officers (EACUBO) for 1986-87 and a former first and second vice president for EACUBO, Hanes has long been an active member of both EACUBO and NACUBO.

During 1984-85 he was a member of the Chief Business Officers Institute Program Committee, and in 1985 he served on the EACUBO Annual Meeting Program Committee; in 1986 he was chairman of that committee. During 1987-88 he chaired the NACUBO Audit Committee, and from 1986 to 1988 he was a member of the NACUBO Board of Directors.

Hanes holds a bachelor's degree

from Ohio University. He worked as a controller at Firestone Tire & Rubber from 1962 to 1966 and as assistant chief accountant at the University of Michigan from 1966 to 1970. He came to Stony Brook as chief accountant in 1970, later advanced to assistant vice president for finance and management (1972-75) and then to acting vice president and vice president for finance and business (1975-80). In 1981, he was

named vice president for administration, and in 1988, deputy to the president for special projects.

In addition to his professional ties with NACUBO, Hanes has been an active member of the Middle States Commission on Higher Education, The Research Foundation of the State University of New York and the National Association of State and Land-Grant Colleges.

Three Win Top National Honors

continued from page 1

Wimmer is studying whether poliovirus can be used to develop new vaccines. Once a major cause of devastating disease in the United States, poliomyelitis has nearly disappeared in America because of two vaccines developed by Jonas Salk and Albert Sabin. The disease, however, still is widespread in Third World countries.

One of the goals of Wimmer's research is to improve the current vaccines by making them more resistant to heat. Moreover, Wimmer is investigating the mechanism of poliovirus growth and possibilities to develop antiviral drugs.

Poliovirus belongs to a family of viruses called picornaviruses, which includes the enteroviruses that can cause a variety of serious diseases such as meningitis, hepatitis and heart disease, and the rhinoviruses, which are responsible for the common cold. By studying poliovirus,

Wimmer said he hopes his research will lead to better treatments for such illnesses and diseases.

Born in Berlin, Wimmer completed undergraduate studies at the University of Rostock, Germany, and the University of Gottingen, Germany. He also completed graduate studies at the University of Gottingen.

He is a member of the American Society for Microbiology, American Association for the Advancement of Science, American Society for Virology, Society for General Microbiology and Sigma Xi, the Scientific Research Society.

He has been teaching at Stony Brook since 1974 and became chairman of the department in 1984.

Joan S. Brugge, professor of microbiology, has received a \$2 million MERIT Award from the National Institutes of Health for her work on cancer.

Brugge discovered the protein product of an oncogene called src. The gene is important because it was found in association with the Rous sarcoma virus, a virus that causes cancer. The gene was captured by the virus from normal cells. Brugge is studying how the protein product of this gene functions in normal cells and how this protein, once altered, is able to change a normal cell to a tumor cell.

Brugge said the src gene is a model system for studying the mechanism of tumor development, and that the long-range goal of her work is to develop more effective and less toxic therapies to treat cancer.

Brugge received a bachelor's degree from Northwestern University and a Ph.D. from Baylor College of Medicine in Houston. She completed a postdoctoral fellowship at the University of Colorado Medical Center in Denver. She has been teaching at Stony Brook since 1979.

ment of French and Italian.

Mignone has been teaching at the university since 1970. He became a full professor in 1983.

Mignone is also executive director of the Long Island Center for Italian Studies, an educational and cultural center based at the university. The center, founded in 1985, seeks to foster a better understanding of Italian and Italian-American cultures through lectures, films and language classes for the public. A major objective is to institute an

CAMPUS CURRENTS welcomes letters for publication as well as news about faculty and staff at Stony Brook.

Newsmakers

Velio Marsocci, professor of engineering, has been elected chairman of the Long Island Section of the Institute of Electrical and Electronics Engineers (IEEE) for 1988-1989.

The L.I. Section of the IEEE has over 4,000 members and celebrated its 40th anniversary last November. The IEEE is an international organization and is the largest professional society in the world with 267,000 members.

Marsocci is also clinical professor of Health Sciences. After receiving his doctorate at the New York Uni-

versity Engineering School (since merged into Polytechnic University), he has concentrated on solid state electronic circuits and devices. He has contributed about 60 technical publications and has authored sections of three engineering handbooks. He has been at Stony Brook for 22 years. He also was president of the Suffolk County Chapter of the New York State Society of Professional Engineers from 1972 to 1974.

Mario B. Mignone has been appointed chairman of the Depart-

TOP TEACHERS: President's Award winners for excellence in teaching (from left) Patrick Grim (philosophy), Max Dresden (physics), Alan O. Ross (psychology) and David Bynum (microbiology) are joined by President John Marburger at a recent reception at Shorewood.

continued from page 2

Italian Language Scholarship program for students seeking a graduate degree in Italian studies at Stony Brook. The center also publishes *Forum Italicum*, one of the world's leading journals devoted to Italian studies.

Mignone is also the director of the university's summer program in Rome.

He is a member of the American Association of Teachers of Italian and the Italian National Honor Society.

He received a bachelor's degree from City College of New York and master's and doctorate degrees from Rutgers University.

Helen Cooper, associate professor of English, first became interested in the poetry of Elizabeth Barrett Browning (1806-1861) as a graduate student studying Victorian poets.

She learned about the male poets — Alfred, Lord Tennyson, Matthew Arnold and Robert Browning — but Barrett Browning was not on the reading list. The time was the early 70s and the feminist movement was asserting itself.

In her latest book, *Elizabeth Barrett Browning, Woman and Artist* (Chapel Hill: University of North Carolina Press, 1988), Cooper claims that Barrett Browning writes about what it means to be a female poet writing in a male tradition.

While her earliest poems were modeled after male poets, including Homer and Milton, Barrett Browning later began to develop her own voice, one that dealt with the struggle of being a female poet in Victorian times.

Cooper argues that Barrett Browning makes the transition from being a female poet writing like a man - woman as object - to a female poet writing as a woman - woman as subject - in "Sonnets from the Portuguese," (1850) which contain the famous "How do I love thee? Let me count the ways."

"The 'Sonnets' first bring into harmony 'I' a woman and 'I' the poet," Cooper writes. "(They) record the transformation of woman from

muse/helpmeet/object into poet/creator/subject."

Cooper argues that "Aurora Leigh" (1857), a nine-book novel-poem, is the poet's most important work. The poem is a fictional version of Barrett Browning's own maturation as a poet. "Aurora Leigh" tells the story of a young woman who

wants to be a poet but is constrained by society's mores that say she should be a helpmate to a man.

Cooper, director of graduate programs for the English Department, received a 1987-88 Research Development Grant from the university to work on a third book, *Gender and*

Representation in Pre-Raphaelite Poetry.

Cooper received a bachelor's degree from King's College, University of London, master's degrees from City College and Rutgers University and a Ph.D. from Rutgers. She has been teaching at Stony Brook since 1980.

PROFESSIONAL SALUTE: President John Marburger (right) joins President's Awards for Excellence winners for Professional Service at a reception in their honor at Shorewood. They are (from left) Carl Burgos, assistant director of General Institutional Services; Betty Bechtel, assistant registrar, and Alan Inkles, production manager of the Fine Arts Center.

Former Grumman Exec. Joins Faculty

continued from page 1

International Private Enterprise Task Force, an 18-member panel which advised the President and directors of the Agency for International Development on the role private enterprise could play in foreign aid.

In addition to his consultant's role at Grumman, he continues to be an active business leader. He is a director of the DCNY Corporation, General Re Corporation and Westvaco Corporation. He was a director of the

New York State Business Council from 1981 to 1988 and was its chairman from 1984 to 1985. Bierwirth was appointed by New York Governor Mario Cuomo as an original member of the Council on Fiscal and Economic Priorities, a 21-member body of key business, labor and academic leaders that advises the Governor on spending, taxation, capital development, human resources and other major state policy issues.

Bierwirth said he is pleased to become part of the faculty of the

State University of New York at Stony Brook. "Stony Brook is going places. It is already in a leadership position within the state university system and sits in the midst of a community with a heavy need for well-educated, technically-oriented people with a good background in what the world is about. I plan to share my experiences and to help Stony Brook in fulfilling its mission as a leading institution of higher learning."

EVENTS

We welcome contributions to this calendar. To be considered all events must take place on the campus and be open to the campus community. Written notices must be received at the Campus Currents office, 138 Administration Building, 12 calendar days prior to date of publication. Telephone calls cannot be accepted. List the type of event, its title, name of leading artists or speakers, date, time, place, cost (if any), and telephone number for more information. We will not publish information that is incomplete or illegible.

GENERAL INFORMATION

THE VICTIMS INFORMATION BUREAU OF SUFFOLK, INC., provides 16 session workshops for men who have been verbally or physically abusive to their mates. Any males interested in this program call 360-3730 for starting dates. Services are free and confidential.

V.I.B.S. has reflective banners with large red letters bearing the message "PLEASE CALL POLICE". To obtain a banner, forward a \$4 tax deductible, check or money order, payable to the Victims Information Bureau of Suffolk, 22 Lawrence Avenue, Smithtown, New York 11787, together with a long, stamped (43

cents) self-addressed envelope.

HOTLINE VOLUNTEER TELEPHONE COUNSELORS Are you a good listener? Response, a 24-hour crisis intervention hotline is now accepting applications for its August day time training program for volunteer telephone counselors. The training will focus on issues of concern to callers and on crisis counseling methods. No special skills are required other than a desire to help others. Please call 751-7500 for more information. Your help CAN make a difference!

LECTURES

Tuesday, July 26, 1988
NEUROBIOLOGY AND BEHAVIOR - "The Action of the Albino Gene in the Development of the Central Visual Pathways." Speaker: R. W. Guillery, FRS, Professor of Human Anatomy, Oxford University, 4 p.m., Life Sciences Bldg., Rm. 038.

PERFORMANCES

Monday, August 15 **CAMERATA SINGERS AUDITIONS F'88**: Wolf 4 Sacred Songs, Brahms 4 Songs w/horns and harp, and music

by Schutz and Weelkes. Mostly, but not limited to, graduate students, faculty, staff, and community. Upper division undergraduates with permission of instructor. Wednesdays 7:30-10:30 Fine Arts Center 0113. Good sight-reading, ability to sing in foreign languages, and choral experience required. Call T. Mount for audition appt. 2-7329; messages 2-7330; 1st rehearsal: 9/7, 7:30 p.m.

Tuesday, September 6

CHAMBER SINGERS AUDITIONS F'88: Missa l'homme arme, a Renaissance Mass by Ockeghem, in a new performing edition. Mostly, but not limited to, undergraduates. Mondays and Wednesdays 12:50-1:45 & participation in SB Chorale. Audition Tuesday, 9/6, 7:30 p.m., Fine Arts Center 0113; no audition preparation required.

STONY BROOK CHORALE F'88: Britten, Festival Te Deum, Brahms, 4 Gypsy Songs, and Childhood of Christ (in French) with Stony Brook Symphony. Open to all. Tuesdays 7:30-10:30 p.m., Fine Arts Center 0113. Ability to read music required but great sight-reading is not. Auditions Tuesday, 9/6, 7:30-10:30, Fine Arts Center 0113; no audition preparation required.

UNIVERSITY CONVOCATION SERIES 1988/89 The complete schedule for the second year of University Convocations follows. Watch for announcements of specific topics, speakers, and programs.

September 7

John H. Marburger, Office of the President. President Marburger's topic will be "Stony Brook Enters the Decade of Refinement."

October 5

Aldona Jonaitis, Office of the Vice Provost for Undergraduate Studies

November 8

Robert L. Lichter, Office of the Vice Provost for Research and Graduate Studies

March 15

Paul Edelson, Office of the Dean of the Center for Continuing Education

April 4

J. H. Oaks, Office of the Vice President for Health Sciences (location to be announced)

May 10

J. R. Schubel, Office of the Provost
The University Convocations are held between 12:15 to 1:30 P.M. in the Recital Hall at the Fine Arts Center. The convocations are sponsored by the Office of the Provost and all faculty, staff, graduate, and undergraduate students are cordially invited.

CAMPUS CURRENTS CLASSIFIEDS

NOTE: Submit one application for each position to either Main Campus or University Hospital Human Resources departments. Candidates for state positions that are identified with an asterisk preceding reference numbers are selected from New York State Civil Service eligibility lists. Contact the Human Resources departments with questions.

Application Deadline August 17
