

"Music Of Poetry" Gets Set For Prime Time Rhyme Time

Poetry has its own rhythms. Now, doctoral music students at Stony Brook will sing those rhythms and set them to music, at a concert March 1 at 8 p.m. in the university's Fine Arts Center Recital Hall. The concert is open to the public, admission free.

The group, which calls itself "Music of Poetry," was started by Sandra Rogers. Rogers is a student in the university's doctor of music arts program. She'd previously tried setting scriptures to music and performing the results in churches and decided to try the same thing with works that had been read at Stony Brook's Poetry Center. The poets and the Center's director, Stony Brook professor of English June Jordan, were enthusiastic. "I think this collaboration between disciplines is the full expression of an ideal," she said, "which is that the Poetry Center would enrich campus life in a pragmatic way. I'm thrilled that it's in sync with the contemporary arts, which are multimedia in nature."

Rogers recruited other doctor of music arts candidates to join her. Rick Glascock will play percussion, Joe Carver will play string bass, and Sue Royal will play flute. Rogers will sing—and sometimes speak—the poet's words.

The group will perform a program of 17 poems written by Stony Brook faculty, students, former students and Long Island poets. The poems were selected and arranged by Rogers.

"You have to play with the poem for a while, to decide how best to utilize its own special rhythms," she says. "If a poem ends abruptly, so will we. At other times the instruments will taper off slowly, as will the poem." Rogers says the music will express a variety of moods. "There are a couple of poems of a biting, sarcastic nature. For these we'll use spoken segments with a snappy diction and maybe a few jazz rhythms. Lyric poems will sound gentle and mystical." Though she met with some of the poets to discuss their work, "they didn't try to impose any particular interpretation on me." "Music of Poetry" first performed together last year at a recital on campus, to the delight of music and poetry lovers alike. This time around, Rogers is hoping that anyone interested in the combination of two forms of artistic expression will attend. "When we go against natural rhythms in music or poetry, we lose something," she explains. "It's fun to combine the two and let each complement the other."

From University Of Chicago

Kidney Disease Expert To Head Medical School

Dr. Jordan Cohen, one of the nation's leading experts on kidney disease, will become dean Stony Brook's School of Medicine on July 1.

In announcing the appointment president John H. Marburger said he was pleased that Dr. Cohen will be coming to Stony Brook, terming him "a leader in American medicine."

In addition to serving as dean, Dr. Cohen will be appointed professor of medicine.

Dr. Cohen currently serves as professor and associate chairman of medicine at the University of Chicago's Pritzker School of Medicine. He is physician-in-chief and chairman of the Department of Medicine at the Michael Reese Hospital and Medical Center, the primary affiliate of the University of Chicago Medical School.

Dr. Cohen is chairman of nephrology sub-specialty, Board of Internal Medicine, president-elect of the Association of Program Directors for Internal Medicine and a member of the Board of Regents of the American College of Physicians. A specialist in diseases of the kidney, Dr. Cohen is the author of three textbooks, eleven book chapters and numerous scientific publications. His research interests focus on acid-base and electrolyte metabolism.

Dr. Cohen was born in St. Louis in 1934 and graduated with honors

from Yale and the Harvard Medical School. His research and residency training was taken on the Harvard service of the Boston City Hospital and at the Tufts New England Medical Center between 1960 and 1965. He was director of renal services at

the Rhode Island Hospital and associate professor of medicine at Brown between 1965 and 1969. Following service as a lieutenant colonel in the Army Medical Corps, Dr. Cohen returned to Tufts, where he became professor of medicine before moving to the University of Chicago and Michael Reese in 1982.

Journalist I.F. Stone To Speak Here March 10

I.F. Stone, maverick journalist, author and civil libertarian, will speak here March 10. His topic will be "A Conversation at 80 with I.F. Stone."

The fourth speaker in the University's 1988 Distinguished Lecture Series, Stone will deliver his lecture at 8 p.m. in the Fine Arts Center. Admission is free and the event is open to the public.

The appearance of Stone is particularly timely since he has recently published his 12th book, *The Trial of Socrates* about the death of the ancient Greek philosopher.

Stone has been a newspaperman for more than half a century and a Washington correspondent for more than 40 years. For 19 years, he edited and published *I.F. Stone's Weekly*, a Washington newsletter that achieved an international reputation for insight, urbanity and wit.

No other journalist of his generation has had so many books published which bring together collections of his columns and dispatches from various periods of American and world history: *The Truman Era*, *The Haunted Fifties*, *In a Time of Torment*, *Polemics and Prophecies*, and *The Best of I.F.*

Stone's Weekly. Recently, *Underground to Palestine* has been re-published by Pantheon, a vivid

account of his travels in 1946 with survivors of the Hitler death camps from Poland to Palestine. Stone

was the first journalist to make that hazardous trip through the British blockade in the Eastern Mediterranean.

Since his retirement from the *Weekly* in 1972, Stone has been working on a study of the problem of freedom of thought and expression, a task which led to his learning classical Greek. His first translations from the Greek poets have recently appeared in the *New York Review of Books*. He has published a dozen books and been translated into Japanese, Dutch, Danish, French, Italian, Spanish and Hebrew.

The lecture series is co-sponsored by *Newsday* and Stony Brook's Office of the Provost. Future speakers this spring will be Frances Moore Lappe, author of "Diet for a Small Planet," March 31; Ramsey Clark, former attorney general of the United States, April 25, and Bishop Desmond Tutu, Anglican bishop of South Africa, May 11.

For Grad Student, University Club's Menu Provides Sampling Of Future

By Sue Risoli

Anita Altwein is planning a luncheon. She'll oversee the caterer, create an ambiance, mingle with guests. And when it's all over, she'll take a deep breath...but only for a moment!

That's because she'll have to re-create the whole thing three times a week for the rest of the semester as director of the new University Club which opens here March 1.

For Altwein, a graduate student in business management at the W. Averell Harriman School for Management and Policy, it's a learning experience and then some. She landed the job as an outgrowth of a search last fall for an internship. Harriman dean Gerrit Wolf suggested she contact associate provost Benjamin Walcott, who was exploring the possibility of opening a University Club for faculty/staff dining.

"At first my task was merely to collect data on how other universities started up and ran their faculty/staff clubs, and to do market research on the desire for one here," she recalls. However, after each of the 65 faculty polled (selected randomly from the university directory) waxed enthusiastic, "we got the go-ahead from Provost Schubel. Suddenly, I was helping to open up a restaurant."

Altwein ordered equipment, sought and helped select a caterer (David Lawrence Caterers of Medford), did economic analyses on start-up costs and "breaking even,"

and coped with a myriad of health and sanitation regulations. "We're meeting the requirements of county health authorities, as well as our campus Department of Environmental Health and Safety," she relates. "Water has to be 140 degrees to properly sanitize dishes. There has to be a Plexiglas shield over the buffet table, in case someone sneezes. The list goes on and on."

The Club will open March 1 for lunch, from Noon to 2 p.m., on the second floor of the Chemistry Building in the former "senior commons" room. It will be open every Tuesday, Wednesday and Thursday for the rest of the semester. It will serve soup, tossed salad, unlimited bread and butter, a main course, coffee or tea, and dessert, all for \$6 (including tax and tip). Though a hot buffet will be offered later in the semester, Altwein says that right now a single hot entree will be served, "probably a nice roast." It has not yet been decided, says Altwein, whether the Club will be open during the summer, although it will re-open in the fall. Reservations are encouraged, though "walk-ins" will always be welcome, she adds.

As the semester progresses, Altwein will turn management of the Club over to the caterer; she will complete her master's degree at Harriman in May. Before she leaves, though, she will work with Walcott to establish a board of directors for the club, and to set up a membership

structure with a sliding-scale fee schedule. She will also design and implement marketing strategies. Altwein hopes to parlay her experience into a career in planning or marketing at the management level in the private sector. Her experience at Stony Brook has whetted her appetite for the restaurant business. "I enjoy it. It has been an excellent experience in planning any kind of business—dealing with regulations, working with people and paying attention to detail."

Working with people has been one of the benefits of her involvement with the University Club. She cites

the efforts of Mike Paduano and maintenance supervisor Ken Christiansen, who helped set up the kitchen facilities, director of research purchasing Mary Keating ("she got the chairs we needed, and ahead of schedule") and building manager Stuart Cohen ("every time he accepted a delivery for us, he counted the boxes. Once there were over one hundred boxes.") And, of course, there is the encouragement from faculty and staff. Where will she be on Opening Day? "I'll be watching from the kitchen," Altwein says. "watching and evaluating."

Three Win Catacosinos Fellowships For Research

Three Stony Brook researchers were awarded 1987-88 Catacosinos Fellowships at a luncheon in their honor February 18 held at the Frank Melville Jr. Memorial Library.

The endowment for the fellowships was established in 1978 by Long Island Lighting Company board chairman Dr. William Catacosinos to advance cancer research at Stony Brook. Dr. Catacosinos is a former Stony Brook Foundation board member.

The three recipients are:

- James Quigley, professor of pathology, who received a \$15,000

Catacosinos Professorship Award. Quigley's work bears on the basic science of metastasis, the hallmark of malignancy. His proposal is to study antigens on the surface of experimental cancer cells using monoclonal antibodies and to determine the role of these antigens in causing the spread of cancer. Quigley received a doctorate from Johns Hopkins School of Medicine and a bachelor's degree from Manhattan College. He completed post-doctoral studies at Rockefeller University in Manhattan. He was a Fogarty Fellow at Oxford University (England) in 1981.

- Steven Rokita, assistant professor of chemistry, received a \$10,000 Young Investigator Award. Rokita's work focuses on anti-cancer and antiviral therapy. His goal is to develop drugs that prohibit the expression of a gene, thus preventing the proliferation of harmful organisms. While the work is in the basic science stage, its promise, if successful, is to lead to effective treatments for many malignant diseases and possibly AIDS. The fellowship money will supplement a \$150,000 grant he received from Procter & Gamble's university exploratory research program. Rokita

received a doctorate degree from the Massachusetts Institute of Technology and a bachelor's degree from the University of California at Berkeley. He also completed post-doctoral work at Rockefeller University.

- Weidong Chen, a grad student in the Dept. of Computer Science, was awarded the Catacosinos Fellowship for Excellence in Computer Science. The fellowship carries a stipend of \$7,500 and a full tuition waiver. Chen is studying logic programming. He received a master's degree from Stony Brook and a bachelor's from Nanjing University in China.

History Professor Named To Editorial Board

History professor Dr. Brooke Larson has been invited to serve on the editorial board of the **Hispanic American Historical Review**, a leading journal in the field of Latin American history in the United States.

The editorial board advises the editor-in-chief about policies concerning the journal.

Larson, who wrote articles for the journal in 1975 and 1980, was nominated by scholars in the field of Latin American history. She will serve for a six-year term.

Larson is awaiting publication of her latest book, *Colonialism and Agrarian Transformation in Bolivia*, by Princeton University Press in May. She has also co-edited *Indian Participation in Southern Andean*

Markets: Strategies and Social Reproduction, 1500 to 1900, which was released in November and published by CERES, a research institute in Bolivia, with funding from the Social Sciences Research Council, New York. She is also the author of *Agrarian Exploitation and Peasant Resistance Cochabamba*, a collected book of articles.

In 1981, she received the Inter-American Foundation Grant to conduct research in Bolivia; in 1986, she was a recipient of a Faculty Travel Grant to Peru; and from 1986 to 1987, she received the Lilly Endowment Teaching Grant.

Larson, assistant professor of history, has been teaching at Stony Brook since 1983. She earned a bachelor's degree from Queens Col-

lege of City University of New York, and a master's degree and doctorate from Columbia University in Manhattan.

'Her appointment to the board is an indication of her exceptional prestige in the field.'

Dr. Joel Rosenthal, chairman of the History Department, said that Larson is regarded as an expert on Hispanic history. "Her appointment to the board is an indication of her exceptional prestige in the field."

Association Seeks Names For Award

Nominees for the 1987-88 Elsa Jona Quality of Campus Life Awards will be accepted through March 25 by the Faculty Student Association.

The Association will present two \$500 awards in April, one to an undergraduate and the other to a graduate student who has created or perpetuated projects designed to enhance campus life. New projects must have the potential for continuation. The Association will also present a \$150 award to a runner-up in each category. Any undergraduate or graduate student can apply or be nominated for the honor. Application will be available from Ann Berrios of the Faculty Student Association, Room 282, Student Union, through March 21. For information call 632-6510.

CED To Mark 20th With March Fete

The School of Continuing Education of State University of New York at Stony Brook will celebrate its 20th anniversary on March 5 with a wine and cheese reception and concert.

The reception will be held at 6 p.m., followed by an 8 p.m. performance by the Stony Brook Symphony Orchestra. All alumni, current students and faculty who have been associated with CED are invited. The cost is \$10, which includes the concert.

AT THE BATON: Yoav Talmi will conduct the Israel Chamber Orchestra when it performs here March 19 in the Fine Arts Center. The concert will begin at 8 p.m.
