STATE UNIVERSITY OF NEW YORK AT STONY BROOK

October 5, 1987

Photo: Sue Dooley

SIGNS to point us all in the right direction are now being produced by a new sign machine in the Department of Public Safety's Sign Shop. The weatherproof letters, produced on tape and being transferred to metal by Josephine Allen, should last three times longer than paint, says supervisor Jerry Lenox, right.

Sexual Harassment Survey Measures Extent of Problem

Seven percent of Stony Brook employees report having been sexually harassed by faculty or supervisors and 5% felt they were currently being sexually harassed.

These statistics are among the findings of an extensive survey conducted by the Sexual Harassment Task Force. The results were released by the Equal Opportunity/Affirmative Action (EO/AA) Office.

What bothers Marion Metivier, special assistant to the President for affirmative action, is the statistic that over 70% of employees were unaware of Stony Brook's policy on sexual harassment. This policy is carefully stated in a brochure available in the EO/AA Office, Administration 474.

Additional employee statistics revealed: 7% have been asked out for dates by their supervisors; 21% reported having been sexually harassed by a Stony Brook employee; 5% reported being harassed by campus visitors; 9% felt they had been sexually harassed by students; 3% report having been sexually harassed in such a way as to involve violence or the threat of violence.

About 44% of the employees submitting surveys felt sexual harassment was handled well at Stony Brook. Nevertheless, Metivier feels the climate could be improved if more complaints were filed. "Many complaints are never filed. In the

last four years, only three formal written complaints have been received," she said.

The survey also included student responses: 6% said they have been asked out for dates by instructors; 5% reported having been sexually harassed by faculty or supervisors; 9% reported harassment by a Stony Brook employee other than instructors; 21% reported being harassed by visitors to the campus; 7% felt they were currently being sexually harassed.

Smooth Phone Day for HSC

On Friday, Sept. 25 the Health Sciences Center and the University Hospital switched over to the Rolm data/voice telephone system like the one the Main Campus has had for a year. "The operation was a monumental one, but it went very effectively," said Don Marx, director of communications management engineering.

The Health Sciences Center/Hospital was able to retain its 444 exchange and most individual telephone numbers are not changed. To dial the Health Sciences Center from the Main Campus, dial a 4 before the 4-digit instrument number. To dial the Main Campus from the Health Sciences, dial a 2 before the 4-digit number.

Residence Hall Reorganization To Improve Coordination

To provide improved service to students and a better coordinated administration of residence hall operations is the object of a recent transfer of responsibilities. Some of the operations which support residence halls have been moved from the Office of the Vice President for Campus Operations to the Office of the Vice President for Student Operations.

President John H. Marburger explained, "These rearrangements place the responsibility for residence life physical plant and fiscal operations under the same administrative structure as the residence life man-

agement responsibilities."

Dallas Bauman, former director of residence life, has been named assistant vice president for residence life. Gary Matthews has been transferred from Campus Operations to Student Affairs. An associate director of residential operations will be hired.

Residence hall custodial and maintenance matters, such as painting, electric work and plumbing, will now be Student Affairs responsibilities. With residence hall concerns centralized, efficiency and accountability should be enhanced.

\$35,000 in Energy Savings Realized

By FAITH DEVITT

Having a \$16 million electricity bill may not seem like a way to join an exclusive "club" but it's working for the university.

The LILCO Energy Cooperative, the first of its kind in the northeastern U.S., is a utility-industry partnership formed with 12 business and institutional users to curb electricity demands during the Long Island Lighting Company's critical peak usage periods. Stony Brook was invited because of its position as the largest single metered energy user on Long Island. As a co-op member, the campus looks not only to helping contribute to efforts for meeting energy needs but also as a way to reduce that \$16 million bill for 1986-87.

The heart of the co-op program is the schedule of intensive payments based on the percentage of demand reduction each member is able to provide. LILCO determines when it is necessary for members to reduce their demands. On campus, the schedule was developed by Christopher Brennan, director of the Health Sciences Physical Plant and Stony Brook's representative to the co-op.

Brennan's major concern was that the campus, especially University Hospital patients and research projects depending upon electricity, would not be adversely affected. To protect these "critical loads," he established "non-critical loads." In peak periods, when requested, the campus first shuts down Health Sciences escalators and occasional lighting, for example. In addition, the university's gas turbine is switched on, supplying an immediate additional 1,500 kilowatts of electricity for the campus. In such times, the power plant stationary engineer monitors a terminal connected to a computer at LILCO's energy headquarters. This provides printed information on electric current demand every 15 minutes around the clock. During critical periods, the printing is stepped up to every five minutes.

Brennan estimates that \$35,000 has been saved through these efforts this summer. With these efforts, the university and other co-op members expect to continue reducing their demands for electricity while increasing their dollar savings.

Stark Wins International Violin Competition

Stony Brook junior Darel Stark was one of four winners of the Tibor Varga International Violin Competition in Sion, Switzerland. Stark, 20, was the youngest and only American among the winners.

The repertory, selected by an international group of musician jurists, included two violin concertos, an unaccompanied Bach partita, a Paganini caprice, a Brahms sonata, as well as a new piece composed for the competition by Swiss composer Eric Gaudibert.

Time magazine named him among the 100 top college juniors in the country. He has also won concerto competitions with the Baffa Symphony, Sound Symphony, and Long Island Musicians Society. The university awarded Stark its excellence in musical performance award in 1985, 1986 and 1987.

Part of Stark's excellence can be attributed to Professor Lazar Gosman, who is director of the Soviet Emigre Orchestra. Gosman has nurtured Stark's talent, desire, and determination to become a premier violinist. At 11, Stark became a member of the Stony Brook University Orchestra; at 13, he became its concert master. By 15 years, Stark began playing chamber music with Stony Brook graduate students. Last year, he gave 60 performances with the

Soviet Emigre Orchestra in seven states and three countries.

Stark has planned a series of recitals on Long Island, including one at Stony Brook Oct. 27 at 8 p.m. in the Fine Arts Center.

Aydinalp to Unite Physical Operations

Tuncay (Tony) M. Aydinalp has been named assistant vice president for physical facilities. In making the announcement, Robert A. Francis, vice president for campus operations, expressed confidence that the campus "will soon benefit from his impressive abilities and credentials."

Francis added that, "This is a critical appointment for campus operations, in that the direction of academic and health sciences physical plants, as well as facilities engineering, at Stony Brook will be united under one manager."

Aydinalp holds an M.S. degree in civil engineering from the University of Minnesota. He directed the physical plant at the University of Minnesota from 1983 to 1986.

StonyBrook

Yves Byron

Photo: Sue Dooley

How Well Could You Handle Six Tons of Laundry a Day?

By MARILYN ZUCKER

Imagine it. Thirteen thousand pounds of laundry a day. Every day. And transporting all that laundry to and from the patient floors on carts.

Yves Byron's speech carries a strong element of French, and although his co-workers call him "Ives," his name is pronounced like those of Yves Montand and Yves St. Laurent. He lived in New York City when he came to America from Haiti in 1979, but, eager to leave the hectic, harried pace of the city, he responded to his sister's suggestion to move out to Stony Brook to work in the "new hospital." After working as a housekeeper for six months because there were no patients yet, he, Francis Doyle, and Loretta Davis became the first three people to be hired in the University Hospital Linen Department.

Now Byron supervises many people who provide the hospital's nursing and ancillary units with essential linens: "On the patient floors, that means bed blankets, thermal blankets, dressing gowns, sheets,

pillowcases, towels, washcloths, and IV gowns," he said. "We change linens every day. The floors get a clean cart in the morning. We close at 10:30 p.m., and make sure the staff won't be short overnight or first thing in the morning. Physical therapy uses lots of towels and bath blankets. And of course there are scrub suits for the operating rooms."

Byron smiles as he recalls seeing "a guy in my neighborhood watering his lawn in scrubs!" To keep track of the precious scrub suits, the Linen Department has installed a computerized "scrub machine" that operates somewhat like the cash machine at a bank: "We issue cards to the nurses. They put their card in and get out a scrub. At quitting time they put in their card and drop off soiled suits. We allow some extras for emergencies, but if they don't drop off their dirty scrubs, they don't get clean ones."

As a supervisor in a crucial hospital service unit, Byron is subjected to a great deal of pressure. Yet his outlook, which helps him keep his unit running effectively, also keeps him remarkably stress-free.

"I respect my own work," he said. "People respect me. I get paid. Life goes on. When I have stress, I analyze the problem and deal with the pressure. To do that, you have to be lucid. If not, you get excited and confused—and stressed. I could be sitting at a desk doing paperwork or mopping a floor, and I'd be the same personality, the same person. This is my job and I enjoy it."

Byron's attitude brings cheer to the people on the floors—nurses, technicians, and support staff. Joe Berendowski, director of linen services, credits Byron with remarkable flexibility: "Yves knows how to really pitch in. Like today, two people are out and he's out there picking up dirty laundry, doing the work of the people he supervises," he said.

Byron himself enjoys his contact with people, and they with him. "I try to bring some light into people's lives," he said. "They get grouchy. People are glad to see me. I joke with them and smile. I can't help it. I was born with it."

TGIF

The Employee Relations Council welcomes all faculty and staff to the End of the Bridge on Fridays from 4:30 to 7 p.m., beginning Oct. 9 for "friends, munchies and music."

Housing Fellow Named

Stan Altman, associate professor in the W. Averell Harriman School for Management and Policy, has been named Presidential Fellow on Housing. In this newly-created position, he will be working with the President on the major housing problems affecting students, faculty, and staff. Specific concerns include the shortage of on-campus housing and the lack of affordable housing in the region.

President Marburger is seeking applicants for a second Presidential Fellow, one to work on master planning.

Oil Found below Tanks

Preconstruction drilling prior to installing new oil tanks required by recent Suffolk County legislation has revealed the presence of oil deeper than 80 feet near the oil storage facility at the Main Campus power plant.

University officials immediately called in the State Department of Environmental Conservation (DEC). DEC is helping the university determine the nature of the material and the extent of its dispersion. According to the core soil samples, the oil seems to have been in the ground near Loop Road for more than ten years, dating back to a time when the university used light oil (fuel oil number 4) for its steam plant operation. Just prior to 1973, the university switched to a high temperature hot water operation and a more viscous oil (fuel oil number 6) which gives more heating value per dollar and is thicker than petroleum jelly when stored in tanks underground.

Seven steel 50,000-gallon oil tanks are being replaced with four 80,000-gallon fiberglass ones.

CED Staff Discounts

Paul J. Edelson, dean of the Center for Continuing Education, has announced that starting this fall Stony Brook employees are being offered 10% discounts on non-credit CED courses. The discount is being made not only to increase class enrollments but to show appreciation for the ongoing support of the campus community.

Student Wins Stipend

Orlando Montan, a senior in applied mathematics from the Bronx, attended a symposium on campus last spring designed to bring together minority undergraduate students and representatives of graduate schools. Organized by Myrna Adams, assistant vice provost in the Graduate School, the symposium included a college recruitment fair on the graduate level.

Montan met the Temple University delegate who described to him the ten-week Summer Research Program which offered training, research opportunities, and stipends to cover tuition and room. Montan applied and was chosen. He spent the summer at Temple working with research professors, learning FORTRAN, and developing computer graphics expertise.

Football News

Paul J. Dudzick, director of men's athletics, announced that the university has accepted an invitation to join the Liberty Football Conference with play starting in the 1988 season. "We at Stony Brook are unanimous in our enthusiasm and very excited about our participation in the conference," said Dudzick. Other members of the Liberty Conference are: Fordham, Iona, C.W.Post, Pace, St. John's and the U.S. Merchant Marine Academy.

Sam Kornhauser, head football coach, has announced that senior Chuck Downey and junior Doug Jordan have been elected co-captains of the 1987 squad by their teammates.

1957 - 1987

These items have been copied from area newspaper reports over the past 30 years. SULIC are the initials of the State University Long Island Center, and SUSB the initials of State University at Stony Brook. We encourage readers to submit similar historical notes and photographs.

Oct. 4, 1957

Leonard K. Olsen, dean of the State University College at Planting Fields, Oyster Bay, will be the guest speaker at the Oct. 8th dinner meeting of the Oyster Bay Chamber of Commerce. "At this time," said Chamber President Carmen Berlangero, "Dean Olsen will tell of the necessity for such an institute of learning here, one which is not a teachers college in any sense of the word, but one which will specifically train teachers in the fields of science and mathematics, and will also speak on the necessity for obtaining adjacent, suitable living accommodations for the staff as well as for several hundred students." — *Oyster Bay Guardian*

Oct. 2, 1960

Photo Caption: Antique fish pool in campus garden at State University at Oyster Bay, L.I., now serves as a "wishing well" for students John Milano and Marilyn Vetter. Stately Coe Hall provides picturesque backdrop as coeds Vivian Meksin, Judy Paldy, Elsie Tremel, and Marsha Davis meet on campus during free period. — *New York Mirror*

Oct. 5, 1962

The Fine Arts Department at SUSB will start, besides its student choral group, a University Chorus. This chorus will be composed of students, faculty, staff, family of the faculty and staff, and members of the community. Rehearsals will be held in the evening ... Three Villagers are invited to attend the first meeting of this group, which will be held in the auditorium of the Humanities Building on Oct. 8. — *Three Village Herald*

Oct. 6, 1967

A residential college plan, which restructures the large university into smaller units aimed to encourage more meaningful relationships between students and faculty, gets fully under way at SUSB this month with the formation of 15 colleges of 200 to 400 students each, the naming of the colleges after distinguished New Yorkers of the past, and the naming of faculty masters for each college, some of whom will live in with the students. In addition, Dr. John S. Toll, SUSB president, announced the appointment of Dr. Lawrence P. DeBoer as director of the residential colleges with the responsibility of coordinating all programs and activities ... The concept of the college plan, which takes its cue from similar systems at Oxford, Yale, and Harvard, but is distinctively different, was announced by Dr. Toll, himself a Yale graduate, at his April 1966 inauguration as president of the burgeoning university center. — *Three Village Herald*

CAMPUS CURRENTS welcomes letters for publication as well as news about faculty and staff at Stony Brook.

Skills Training

Motivation, performance, delegation, communication, leadership styles and group behavior are some of the topics being covered by the Human Resources Development Program. Designed for supervisors and potential supervisors, the program is open to CSEA, PEF and M/C employees.

Ten sessions conducted over a five-day period have been planned to enhance supervisory skills. Certified instructors will utilize role plays, case studies, simulations, lecturers, and structured exercises.

Employees can take the program Oct. 6,8,13,20 and 22; or Dec. 15 and 17, and Jan. 12,14 and 19. Additional courses will be offered next semester. Enrollees should be recommended by department heads. For further information, contact Harold Mendelsohn (Main Campus), 632-6140; or Shirley Menzies (Health Sciences Center), 444-2523.

Sailing Schedule

Carl Singler, sailing team advisor, announced the following two upcoming events at the U.S. Merchant Marine Academy at Kings Point: Oct. 11-12, mono elims, lasers; Oct. 24-25, dinghy elims, 420's.

NOTICES

HUMAN RESOURCES BOOKLET

The Office of Human Resources has put together a booklet designed to inform staff and faculty of the department's varied functions and services. Call 632-6136 for copies.

HARD TIME SLEEPING?

The Sleep Center at University Hospital is conducting studies of the nature and treatment of poor sleep. Persons between 18 and 55 with longstanding difficulty sleeping are welcome to apply. Applicants should not have any major medical illnesses, should not be receiving psychiatric care nor taking prescriptive medicines except for sleep. Call Elaine at 444-2862, if interested.

NTP SALARIES

NTP's who are to be re-classified as part of the new re-classification program should hear the result in October. Any increase in salary as a result of the program is expected to be received in the Dec. 23, 1987 paycheck.

To Run AIM Program

Provost Schubel has announced the appointment of Dr. Monica Rascoe to the position of assistant vice provost for special programs. Formerly director of the Center for Minority Student Affairs at Georgetown University, she will administer the Advancement on Individual Merit (AIM) Program at Stony Brook.

Angress Retires

Werner T. Angress, professor of history, has announced his retirement. He came to Stony Brook in 1963, just one year after the campus opened.

Saluting his years of achievement is a display of his publications in the lobby of the History Department on the third floor of the Ward Melville Social and Behavioral Sciences Building.

Cleveland Resigns

Ceil Cleveland, assistant vice president for news, publications, and media affairs, has resigned to accept a position in the publishing business.

She served in the newly created title for 15 months. Her accomplishments included starting *Stony Brook Magazine* and upgrading the quality of many student recruitment publications.

Honors, Awards

Carole Blair, associate dean of the School of Nursing and chair of the Department of Parent and Child Nursing, and Sandra Jaffe-Johnson, clinical associate professor and coordinator of the graduate program in psychiatric/mental health nursing, have been board certified as Fellow and Diplomates in the American Board of Medical Psychotherapists.

A Fulbright grant for study in Colombia has been awarded to Mildred Ruth Rapp of the Department of Linguistics.

Publishing Notes

An Associated Press story published by many newspapers and the July 3 issue of *Science* magazine reported on eye research by a team headed by Josh Wallman, professor of biology at City College of New York. Team members included Vidya Rajaram, a graduate student in medicine at Stony Brook. The eye research story was carried by newspapers in Maine, Minnesota, Oklahoma, North Carolina, and South

FACULTY/STAFF

Carolina, among many others.

Scientific American reported this spring on the work of two faculty members. The May issue noted the work of Karen Bullock, research assistant professor in neurology, in a report on the nervous system's interaction with the immune system. A March issue report on poliovirus cited Eckard Wimmer, chair of the Department of Microbiology, and his colleagues.

Glenn Yago, director of the Economic Research Bureau at Harriman School, was the principal author of a controversial report issued this spring. It predicted Long Island's economy will peak in 1991, "followed by a swift slowdown to lackluster performance." When the Long Island Regional Planning Board issued its report, predicting the local economy will slow but stay healthy until the year 2000, Yago said the Stony Brook team stands by its predictions. The problems faced by Long Island are solvable, he said, agreeing with Lee Koppelman, the planning board's executive director and professor of political science.

The August issue of *Science* carried an article, "Imaging Unaltered Cell Structures with X-rays" about work being done at the National Synchrotron Light Source at Brookhaven National Lab. Stony Brook researchers mentioned in the story were Janos Kirz, professor of physics, Harvey Rarbak, former graduate student, and Nasif Iskander, new graduate student.

Steven Jonas, professor of community and preventive medicine, was the author of a short piece in the Aug. 18 *Washington Post* dealing with the effects of cost-cutting on medical training.

"If you're going to incinerate waste, you should only incinerate what you have to incinerate," Theodore Goldfarb, associate professor of chemistry and associate vice provost, was quoted in New Jersey papers as saying. He said he was concerned about large incinerators being built without efforts to reduce the trash flow through recycling.

On the Road

Richard Koehn, director of the Center for Biotechnology and professor of ecology and evolution, attended the Training Institute in Research Management sponsored by the Association for Health Services Research and held in Otter Crest, Oregon Sept. 14-17. He also participated in BioTechnica '87 Hanover in Germany

Photo: Peter Troiano

AWARDS. From left, Officer William R. Plog, who was given a 20-year pin at a Sept. 20 Department of Public Safety ceremony; Officer Edward Powers, cited for his vast knowledge of the community and the university's role in the community; Gary Barnes, director of public safety, who made the presentation; and Officer Howard Claeson, honored as "best all-around officer" on the day shift.

Sept. 21-24. The purpose of the international congress was to enhance collaboration with biotechnology companies and attract such companies to New York State. From Oct. 4 to 14 Koehn will be at the General Institute of Genetics in Moscow, carrying out collaborative research projects with Soviet scientists.

S.N. Sridhar, associate professor of linguistics, was an invited speaker at the Second World Basque Congress held in San Sebastian-Donastia, Spain, from Aug. 30 - Sept. 4. He spoke on "Language Modernization," outlining ways in which a developing language equips itself to serve as a vehicle for expressing modern ideas. Sridhar also delivered the S.S. Malawada Endowment Lectures at Bangalore University, India on "mixed languages" and "the modernization of the Kannada language," earlier this year. He also chaired the meeting of the Karnataka State Academy of Letters in Bangalore, at which Mark Aroff, professor of linguistics, presented the results of joint work on word-formation in Kannada.

CAMPUS CURRENTS CLASSIFIEDS

JOB POSTINGS

Application Deadline: Oct. 5

C356-87 - Senior Typist, CPMP/Orthopaedics, SG-7E.

C357-87 - Senior Stenographer, Community and Preventative Medicine, SG-9E.

M86-87 - Janitor P/T, HSC Physical Plant, SG-6.

*C331-87 - Senior Purchasing Agent, Purchasing, SG-23.

T58-87 - Dental Hygienist P/T, Dentistry, SG-10E.

*HSC421-87 - Keyboard Specialist, Media Services, SG-6.

*HSC422-87 - Keyboard Specialist, Audio/Visual Publ., SG-6.

*UH423-87 - Senior Stenographer, Clinical Services, SG-9.

Application Deadline: Oct. 13

87-208 - Internal Auditor, Internal Audit, PR-2, \$28,000-33,000.

87-209 - Programmer Analyst, Social Science Technical Supply, PR-2, \$24,000-28,000.

87-210 - Programmer Analyst P/T, HSC Physical Plant, PR-2, \$13,000-15,000.

Application Deadline: February 1, 1988

F90-87 - Associate Professor or Professor and

Chair, Department of Restorative Dentistry, salary dependent upon qualifications.

VEHICLES

PONTIAC 1981 T-1000, good condition, 43,000 miles, yellow, \$1,500, call eves. only 981-7863.

MOTORCYCLE - 1973 Yamaha. 350 cc, two cylinder, two cycle, mint condition. Trunk. \$350.

CAR POOLS

RIDERS, NYC, 6 a.m.-3 p.m. daily, 399-1598.

EVENTS

We welcome contributions to this calendar. To be considered, all events must take place on the campus, and be open to the campus community. Written notices must be received at the Campus Currents office, 138 Administration Building, 12 calendar days prior to date of publication. Telephone calls cannot be accepted. List the type of event, its title, name of leading artists or speakers, date, time, place, cost (if any), and telephone number for more information. We will not publish information that is incomplete or illegible.

ACADEMIC

Tuesday, Oct. 6

INFORMATION SESSION - Undergraduate Evening Program; 7-8 p.m.; Frank Melville, Jr. Memorial Library E3320; 632-7080.

CONFERENCES

Wednesday, Oct. 14

THE ABLE DISABLED CONFERENCE - seminar on employing the disabled followed by a career expo for students; sponsored by SUSB President's Advisory Committee for Disabled in cooperation with Suffolk Department of Labor and Industrial Coordinating Council; 9 a.m.-6 p.m.; Stony Brook Union Auditorium and Ballroom, 632-6280.

EXHIBITIONS

Through Wednesday, Oct. 7

UNION GALLERY - Kristin Rusin and George Krauter; Stony Brook Union, second floor; Monday-Friday, times posted on door; 632-6822 or 632-6828.

Friday, Oct. 9 - Friday, Oct. 23

ARTWORK - Don J. Gerber and Steve Chinn; Stony Brook Union Gallery; Monday - Friday, times posted on door; 632-6822.

Through Nov. 14

PHOTOGRAPHY - "Margaret Bourke-White: The Humanitarian Vision," 110 photographs taken 1930-54 by famed *Life* photojournalist Margaret Bourke-White; Tuesdays-Saturdays, 12-4 p.m., some evenings; Art Gallery, Fine Arts Center; 632-7240.

GENERAL INFORMATION

ROMAN CATHOLIC WORSHIP - Mass schedule for fall semester is Monday and Wednesday, 5 p.m.; and Tuesday and Thursday, noon; 157 Humanities. Also Monday-Friday, noon; Hospital Chapel, Level 5. Also Sundays at 11 a.m., 5 p.m., and 7 p.m., Peace and Disarmament Studies Center, Old Chemistry. For more information, call Rev. Vincent Rush at 632-6562.

INFORMATION TELEPHONE - Stony Brook Union and Activities telephone hotline, 632-6321; updated daily with campus events.

SHABBAT - Services are held each week Friday evenings and Saturday mornings. Friday services are held at sundown in Roth Quad Dining Hall, Orthodox downstairs, Egalitarian/Conservative upstairs. A Shabbat dinner follows. Saturday services are at 9:30 a.m. and are followed by kiddush; the Egalitarian service is in the Peace Studies Center, Old Chemistry Building; the Orthodox service is held in Mathematics Building Room S-235. Information on high holiday services on campus is available from B'nai B'rith Hillel Foundation, 632-6565.

LECTURES

Monday, Oct. 5

ELECTRICAL ENGINEERING - "Characteristics of the Error Surface of an IIR Adaptive Filter," M. Nayeri, University of Illinois; 11 a.m.; Light Engineering 206; 632-8400.

MICROBIOLOGY - "Both SV40 T Antigen and the Oncogene Product P53 are Covalently Bound to RNA," Dr. Robert Carroll, Department of Pathology, New York University School of Medicine; 12 noon; Life Sciences 038.

Tuesday, Oct. 6

NEUROBIOLOGY - "Functional Organization of the Retina," Richard H. Masland, Ph.D., Neurosurgery Research Lab, Massachusetts General Hospital, Boston; 4 p.m.; Life Sciences 038; 632-8616.

PSYCHIATRY - "Panic Disorder and Agoraphobia—Biology and Treatment," Thomas Uhde, Ph.D., National Institute of Health; 11 a.m.; Health Sciences Center, Level 2, Lecture Hall 4; 444-2990.

Wednesday, Oct. 7

GERMAN LITERATURE - "Osterreichische Literatur nach 1945- Tendenzen und Beispiele," lecture in German, Adolf Haslinger, University of Salzburg; 12:45 p.m.; Frank Melville, Jr. Memorial Library N3063; 632-7360.

POETRY - Joy Harjo, Native American poet; Poetry Center 238; 7:30 p.m.; 632-7373.

PHYSICS - "g-Loop Amplitudes in the Bosonic String," Alberto Lerda, Physics Department; 12:30 p.m.; Math Tower 6-116.

PHYSICS - "The Quark-Gluon Plasma: A Strange State of Matter," Prof. Bernd Mueller, University of Frankfurt; 4:15 p.m., Harriman P-137.

Friday, Oct. 9

PHYSICS - "Analysis of Light Curve of SN(1987)A," Ken'ichi Nomoto, University of Tokyo; 11 a.m.; Physics C-135.

PHYSICS - "High T Superconductors and Related 'Antiferromagnets Studied by Muon Spin Rotation,'" Dr. Tomo Uemura, Brookhaven National Laboratory; 2 p.m.; Physics B-131.

ASTRONOMY - "Samurais Against Infrared Galaxies," Prof. A. Yahil, Earth and Space Sciences; 8 p.m., Harriman P-137.

Saturday, Oct. 10

JEWISH TOPIC - Lunch with a guest faculty member; 1 p.m., Hillel Director's residence; 632-6565.

IN REHEARSAL. Members of the Netherlands' Orchestra of the 18th century will perform at the Fine Arts Center Nov. 21.

Monday, Oct. 12

LITERATURE - "Rites and Writing," Prof. Elaine Maimon, Brown University; 2 p.m.; Humanities Lounge Room 283.

Tuesday, Oct. 13

PSYCHIATRY - "History of Prefrontal Lobotomy," Elliot Valenstein, Ph.D., Professor of Neuroscience and Psychology, University of Michigan; 11 a.m.-12:30 p.m.; Health Sciences Center Level 2, Lecture Hall 4; 444-2990.

LITERATURE - "Romantic Addictions: Opium, Romanticism, and Contemporary Criticism," Prof. Clifford Siskind, Wayne State University; 3 p.m.; Humanities Lounge Room 283.
