STATE UNIVERSITY OF NEW YORK AT STONY BROOK

October 12, 1987

HOMECOMING OCT. 17

Crafts fair, football game, reception, reunions—and a king and queen!

Homecoming is usually an alumni occasion, but this year everyone is involved at Stony Brook.

Homecoming Reception

Faculty and staff are invited to the postgame (Stony Brook vs. Brooklyn College, 2 p.m.) Homecoming Reception at 5 p.m. in the University Club in the Chemistry Building (formerly Senior Commons). President and Mrs. Marburger will host the affair as a tribute to alumni members of the University Alliance. At the reception, the 1987 Distinguished Alumni Award will be presented to Dr. G. Terence Wilson, Ph.D. '71. Wilson is Oscar K. Burros Professor of Psychology at Rutgers University. He is being honored for his outstanding contributions to the scientific literature on behavioral treatment of alcoholism and his scholarly work on the effects of psychological therapies on abnormal behavior.

King and Queen Contest

A king and queen will be crowned at half-time. They will be selected by a panel which will judge the content and delivery of a short speech; school activities and involvement; poise and grooming.

Crafts Fair

The work of over 70 skilled artists will be on display in the Stony Brook Union, 11 a.m.-6 p.m. Children's activities, such as face painting, clowns, balloon art, games, jewelry making and computer drawing, are scheduled. The Fair is sponsored by the Stony Brook Child Care Services and the Department of Student Union and Activities.

Panel for Parents

A panel of campus administrators will speak to parents at 11:30 a.m. in Stony Brook Union 231 on various aspects of the university.

Reunions, Tours

The Class of '67 will hold a dinner reunion. The class of '77 will gather at a noon Reunion Barbecue. Campus tours will be led by current students at 11 a.m., and a tour of University Hospital will begin at 3 p.m.

Computer Science Library Opens in Lab Office Bldg.

The newest addition to the campus library system is the Computer Science Library, which opened Sept. 2. Located in Laboratory Office Building 2120, the library's collection focuses on current research and trends in the field of computer science. The latest information on database systems, logic programming, computer networks, and artificial intelligence may be found there.

Two changes are apparent in the Main Library: the entrance to the stacks, circulation department, and photocopy services is now at the top of the Galleria stairs; and a designated quiet study area has been created in the Current Periodicals Room.

Stony Brook Awarded Grants Of \$9 Million for AIDS Research

Roy Steigbigel, M.D., will oversee 12 projects to be funded by \$9 million in AIDS grants.

Photo: Sue Dooley

BY DENISE ARNOLD

Stony Brook has been awarded \$9,000,000 for AIDS research for five years from the National Institute of Allergy and Infectious Diseases (NIAID).

Roy Steigbigel, M.D., professor of medicine and pathology in the division of infectious diseases in the department of medicine in the Health Sciences Center, is heading two programs: the National Cooperative Drug Discovery Groups (NCDDG) and the cooperative Clinical Studies Groups (CSG).

Research of this kind allows basic science to be applied directly to clinical studies, Steigbigel explained. It also extends "access to clinical trials of promising AIDS therapies to patients in a much wider geographical area than is now possible," according to Elaine Baldwin of the U.S. Department of Health and Human Services.

This year Stony Brook is the only university in the metropolitan area chosen to receive funding for the NCDDG, and one of 11 in the country. University Hospital is also one of 17 institutions to participate in the CSG research. Stony Brook also has recently been designated an AIDS center by New York State.

Steigbigel will oversee all 12 projects of the two programs. Each project will be led by a senior faculty member and assisted by a team of junior faculty members, postdoctoral fellows, and graduate students. Researchers will meet frequently to share their results.

Under the NCDDG program, four projects in the basic sciences begin this month. Drug development and research at this level takes place entirely in the test tube (in vitro) and will include immunological, biological, and synthetic studies.

• Dr. Carol Carter, associate professor of microbiology, and Dr. Eckard Wimmer,

professor and chair of microbiology, are attempting to develop new drugs that inhibit an enzyme required for protein synthesis by the AIDS' virus, and that would also inhibit replication of the virus.

• Dr. Francis Johnson, professor and vice chair of pharmacological sciences, is working on the development of a new series of drugs that will inhibit a critical enzyme required for growth of the human immunodeficiency virus (HIV).

• Barbara Weiser, M.D., assistant professor of medicine in the division of infectious diseases, is examining the relationship between HIV and other viruses that may act as co-factors or promoters of the virus' growth, and is studying drugs developed at the university and elsewhere that inhibit their growth.

 Steigbigel is studying the role of the macrophage in HIV infection. The macrophage is a cell that is critical for resistance against many types of infection and is a primary target for HIV.

The Clinical Studies Group at Stony

Student/Faculty Team Produces Winning Software

What's RAMAS? It stands for Risk Analysis and Management System and it is the title of an award-winning software program developed by Stony Brook faculty and students.

F. James Rohlf with Lev Ginzburg, two professors of ecology and evolution, together with graduate students Scott D. Ferson and Geoffrey M. Jacquez, constructed the software to be the state-of-theart tool for population modeling.

They evidently succeeded. RAMAS will be honored as the recipient of EDUCOM's Distinguished Software Award at an October meeting in Los Angeles.

Brook will also begin this month. Steigbigel will direct testing of new and established drugs in different doses, schedules, and methods of administration for treatment of AIDS patients. The results of these studies will be shared with other participating institutions, coordinated through the NIAID.

• Harold Burger, M.D., assistant professor of medicine in the division of infectious diseases, is investigating whether variations in HIV affect clinical courses in individuals.

Benjamin Luft, M.D., assistant professor of medicine in the division of infectious diseases, is studying the relationship between taxoplasmosis and HIV; and how

See AIDS Grants Page 2

Faculty Grants Program Revised for 1987-88

The Faculty Development Program, now in its third year, has been revised to "make the program more effective in stimulating research," said Robert L. Lichter, vice provost for research and graduate studies.

Maximum awards of \$3,500, funded by the Research Foundation, are available to non-tenured, tenure-track faculty. The previous grant-in-aid and summer faculty fellowship programs have been merged. There are now creative and performing artists grants, research development grants, and travel grants. Applications for the first two are due in October and March; the travel grants are solicited in November and April.

For details and application forms, contact Assistant Vice Provost Wendy Katkin, 632-7040.

StonyBrook

AIDS Grants—

Continued from Page 1

one may enhance the other.

• Michael Sampson, M.D., assistant professor of medicine, and Gerald Smaldone, M.D., associate professor of medicine, both of the division of pulmonary disease, are investigating pneumocystic pneumonia, the leading cause of opportunistic infections and death in AIDS patients. Sampson hopes to determine a method of early detection of pneumocystic pneumonia that result in early treatment and, hopefully, a high recovery rate. Smaldone is investigating treatment of patients with pneumocystic pneumonia. He will vary

low toxicity.

• Dr. Sidonie Morrison, associate professor of medicine in the division of hematology, and Dr. Eleanor Perschkey, associate professor of pathology, will examine some blood clotting (hemostatic) abnormalities in HIV patients,

doses, schedules, and methods of admini-

stration to find drugs with high efficacy and

and are collaborating with Steigbigel in his macrophage cell research.

• William Schubach, M.D., assistant professor of medicine in the division of medical oncology, will be studying the Epstein-Barr virus, which causes mononucleosis, and its role as a co-factor in some kinds of lymphoma related to AIDS.

• Dr. Rose Walton, clinical associate professor and chair, Department of Allied Health Resources and director of AIDS Education Projects, is responsible for disseminating information to the community regarding the research at the university, the opportunities for AIDS patients at the AIDS Center, and for educating the public about AIDS.

National P.A. Day.

The first physician assistants in the country graduated 20 years ago. To celebrate this fact, the Physicians Assistant Program at Stony Brook held an all-day affair Oct. 6 featuring a display booth and videotapes.

Corrections

The Office of the Vice President for Student Affairs was inadvertently called the Office of the Vice President for Student Operations in the last issue.

The Central Philharmonic of China appeared Saturday, Oct. 10; Music at Noon was Wednesday, Oct. 7.

GOOD OWL DAYS. Daryl Ford displays owls for a museum Halloween event of a previous year.

Giving a Hoot for Halloween

Bats, ghosts, spiders, skeletons, and special effects will be on display on Halloween at the "Museum of Unnatural Sciences," known at more conventional times of year as the Museum of Long Island Natural Sciences.

Between 1 and 7 p.m. Saturday, Oct. 31, children are invited to join in educational fun in the Halloween activity room where learning stations featuring spooky writing, animal skulls, and feely boxes are likely to

ellicit a squeal or two. Admission is \$1 per child, adults are free; no preregistration necessary.

The night before, 7-10 p.m., a Halloween party for museum members is planned. It will feature "A Taste of the Witches Brew" by storyteller E.J. Wagner and magic and clowning by the Chuckles Brothers Circus. Admission is \$2 for children, \$1 for adults. Mail preregistration is required.

Begam Named Alumni Director

Ann C. Begam has been appointed the new director of alumni affairs.

Begam, who comes to Stony Brook from SUNY at Albany where she was director of alumni affairs and executive director of the alumni association, sees her new job as a "challenge, because we have a young

Photo: Stuart-Rodgers
Ann Begam

alumni body." She hopes to strengthen the Student Alumni Council's impact upon the campus, begin career tracking for seniors, fortify regional alumni associations, and invigorate reunions.

In welcoming Begam to the campus, Denise Coleman, assistant vice president for alumni affairs and development, said, "I am very optimistic that Ann will strengthen the framework established by her predecessor, Andrea Young. Ann has a strong programming and organizational background and will be a great asset to the current staff. We look forward to enhancing ongoing communications between the university and its graduates."

Original SB Architect Dies

H. Bourke Weigel, 75, a New York architect who developed the first master plan for the Stony Brook campus, died in late September of liver cancer. As a partner in the firm of Damaz & Weigel, he produced the master plan and designed several of the campus' first buildings. His obituary in *Newsday* claimed, "he was perhaps most noted for his work on the SUNY campus in Stony Brook."

MOCKTAIL PARTIES

Alcohol/Drug Week Opens Oct. 19

President Marburger has designated the week of Oct. 19-25 Alcohol and Drug Awareness Week at Stony Brook. For the fifth consecutive year, faculty, staff, and students will join together to present a week-long comprehensive alcohol and drug education program.

According to Gary G.S. Mis, special assistant to the vice president for student affairs and chair of the planning committee for the week, a few of the week's highlights will include a faculty-staff fun walk sponsored by Human Resources at noon on Tuesday, Oct. 20; a substance abuse and health video series in the Infirmary throughout the week; mocktail (non-alcoholic cocktail) parties; substance abuse workshops in the residence halls; a banner contest; and programs, displays, films, and lectures.

"What Alcohol and Drug Awareness Week hopes to accomplish," said Mis, "is to highlight the issue of substance abuse, to say it is okay to seek help and to emphasize there are individuals available on campus to support that courageous effort."

Employee Relations Council Plans Campus Events

The Office of Human Resources, Main Campus, in an effort to enhance work life for faculty and staff, has formed the Employee Relations Council. Comprising of people from the many work environments on campus, the Council is planning a program of activities and events to provide meeting grounds for employees.

Plans include luncheons and after-work get-togethers for socializing; forming groups formed to encourage sharing of hobbies, sports, and other interests; weekend trips to ski slopes or Atlantic City; and special events to celebrate collective participation in the university community.

The council has sent out a questionnaire to gather information about employee interests. The council welcomes ideas for programs and services. For further information, call Marilyn Zucker, chair, 632-6136.

OUR FIRST

These items have been copied from area

newspaper reports over the past 30 years. SULIC are the initials of the State University Long Island Center, and SUSB the initials of State University at Stony Brook. We encourage readers to submit similar historical notes and photographs.

Oct. 12, 1962

The black smoke and hissing steam bellowing from the heating plant at SUSB is only temporary, university officials stated this week. They explained that the university cannot accept the heating system from the contractor until it has been tested and proved, and that the smoke and steam screen are the results of this testing. It is believed this will be completed within a week unless the steamfitters' strike delays the test. — Three Village Herald

Oct. 13, 1967

The state's Marine Sciences Research Center at SUSB was represented at the Governor's Conference on Oceanography Wednesday and Thursday by Dr. Bentley Glass, academic vice president and distinguished professor of biology at SUSB; Dr. Peter K. Wehl, professor of oeanography and senior scientist for the MSRC, and Dr. Oakes Ames, associate professor of physics and assistant to the academic vice president. Dr. Glass (announced) plans for an expansion of the center's summer program next year to accommodate qualified students from other State University campuses as well as those from SUSB. New courses in invertebrate zoology and marine biology will be offered at the Flax Pond tidal wetland preserve in Old Field, and a graduate program in marine biology will be given at Discovery Bay in the West Indies. — Three Village Herald

NOTICES

WANT TO TAKE A COURSE?

The Center for Continuing Education and Offices of Undergraduate Studies and Admissions are holding an open house to explain to adults how they can work and study at the same time. Featured on Thursday, Oct. 29, 7-9 p.m., in the Ward Melville Social and Behavioral Sciences Building. will be information about undergraduate, graduate, and noncredit programs; professional licensing and management seminars for the business community; off-campus graduate evening courses; support services available to the busy adult and part-time student; personalized academic advising; and easy registration and admission. For information, call 632-7070 or 632-7080.

CRAFTSPEOPLE WANTED

Artists and craftspeople interested in displaying and selling their work are sought for Holiday Fest '87. Seasonal arts and craftswork, ornaments, holiday and ethnic foods, and unusual items, as well as the finest work in traditional media are especially wanted. Holiday Fest '87 will be held in the Stony Brook Union, Tuesday-Thursday, Dec. 8-10. For information, call 632-6822 or 632-6828. Application dead-line: Nov. 6.

Amnesty Int'l. Head To Speak

John G. Healey, executive director of Amnesty International, will be the first speaker of the 1987-88 University Distinguished Lecture Series. His talk, Thursday, Oct. 22 at 8 p.m. in the Fine Arts Center Main Stage, is titled "Human Rights in the 80s."

Healey has led Amnesty International, USA, since 1981. A worldwide human rights organization, it works for the release of prisoners of conscience, fair and prompt trials for all political prisoners, and an end to torture and executions in all cases.

Since Healey's leadership the organization has greatly increased membership and notoriety in this country. Healey has been director of the Hunger and Development Project of the Center for Community Change, organizer of Dick Gregory's World Hunger Run, and director of the Peace Corps in Lesotho.

The Distinguished Lecture Series provides students, faculty, and the community with an opportunity to come into contact with renowned scholars and public leaders who have earned international recognized for their accomplishments in a wide range of endeavors. The series, now in its sixth year, is sponsored by the Provost's Office and co-sponsored by Newsday.

University Places Learning Disabled

Stony Brook supervisors were honored last week by the Office of Mental Retardation and Developmental Disabilities for enthusiastic participation in the Client Employment Program. In the past year and a half, the Office of Human Resources, with support from many university departments, has placed a large number of learning disabled individuals in positions on the

Working at a variety of jobs, participants are paid an hourly rate by the Office of Mental Health for six months to a year, after which they are put on the Stony Brook payroll.

Supervisors have welcomed the program, extending themselves to provide positions in categories such as groundsworker, cleaner, power plant helper, mail and supply helper, clerk, typist, and X-ray aide. Reports of the performance, attendance, and employee commitment have been favorable.

For more information, call Barbara Delfyett (Main Campus), 632-6161, or Suzanne Parsons (HSC), 444-2530.

SB History on Screen

All-in-One Users may now find the facts about many aspects of Stony Brook's past history at their fingertips. By selecting the Bulletin Board (BB) menu and the O.I.S. option, parts of the 1986 Academic Fact Book plus updates may be accessed simply.

Information on file includes enrollments, student characteristics, FTE workload levels, degrees awarded, faculty and staff counts, and research expenditures.

UNIVERSITY GIVING

	June 1984	June 1987
Annual Fund Revenue	\$32,702	\$157,367
Restricted Gift Revenue	892,193	3,157,924
Unrestricted Gifts	371,800	494,000
Increase to Endowment	155,083	1,038,673
Total Assets	3,300,000	8,500,000

Impressive Fundraising Growth

In the last three years the assets of the Stony Brook Foundation have grown by \$5.2 million. Annual Fund revenue has increased five-fold.

Documenting the dynamic growth are the figures below, supplied by Denise Coleman, assistant vice president for alumni affairs and development and executive director of the Stony Brook Foundation.

President Marburger told the 30th anni-

versary convocation audience, "Vice President Teed and Foundation Director Coleman have completely transformed the university's approach to fundraising in an exceptionally short time."

Speaking of the direction of the campus over the next ten years, Marburger said, "Philanthropic support will grow geometrically during the fourth decade. The Stony Brook Foundation will undertake significant capital development projects."

Wellness Program Has Openings

The Human Resources Office has again organized a group of short courses for university employees. Although several have already started, others will be starting later this fall.

A 16-class aerobic swimming course will run Oct. 27-Dec. 17 (Tuesdays and Thursdays, 7:15-8:15 a.m.). Cost: \$24.

Movement awareness will be offered Oct. 30, Nov. 13 and Nov. 20 from noon to 1 p.m. Cost: \$4.50.

Financial management classes will start Nov. 3 and meet for three Tuesdays from

noon to 1 p.m. Cost: \$4.50.

CPR (cardiopulmonary resuscitation) training is a three-day course given Monday, Oct. 19, 2:45-5:45 p.m.; Wednesday, Oct. 21, 7-10 p.m.; and Saturday, Oct. 24, 9 a.m.-noon. Cost: \$11.50.

For more information, contact Marilyn Zucker, Administration 390, 632-6136.
