More on Writers Speak: Richard Panek … Prepare yourself for some dark matter as the MFA in Creative Writing & Literature presents distinguished science writer Richard Panek. He will be reading from and discussing his latest book, on such frivolous topics as the nature of reality. But wait: You won't find a more pleasant and articulate advocate than Mr. Panek for the art of taking on big, complicated subjects with humble grace. Part crash course in particles and petition for plain English, this evening with Richard Panek promises to be riveting in its subject and bountiful as a resource for the creative mind. As always, it's free and open to the public, with a reception and book-signing with the author afterward in the Duke Lobby. Again, it's this Wednesday night, 7 p.m.

4 R's Weekly Column:
4R’s

Over the past few weeks, we’ve spotlighted each of the 4 R’s: Reduce, Reuse, Recycle and Rethink. They all work together, like we do in our campus community. You can reduce your waste by rethinking the way you buy things, reusing components of purchases as much as possible, and recycling whatever you’re able to. For great green tips and community-suggested ideas, check out http://www.thedailygreen.com, and be sure to check out the “Living Green” tab, as it has green blogs for all types of people. Yahoo! Green (http://www.green.yahoo.com), Huffington Post Green (http://www.huffingtonpost.com/green), and Mother Jones (http://motherjones.com/environment) are also great resources for Green news and suggestions.

There are only a few weeks left in RecycleMania, so let’s make them count!

Along with providing some simple suggestions that you can pass on to your friends and family, we hope that you’ve come up with some of your own ideas, and we’d love to hear them! Look for the Outreach Coordinators around campus: they’ll be tabling every week until the end of RecycleMania, or email them!

RM INTERNAL COMPETITION UPDATES: Shelter Island and Mattituck have moved from 3rd place into first, with 19.5 points! Amagansett and Southold are following closely behind with 18 points, and Greenport and Sagaponack follow with 16.5 points! Keep recycling, and remember to rinse and flatten your bottles and cans for more points!
From Prof. Heather Macadam:

SCRIBES (the secret society) announces:

WRITE YOURSELF OUT OF THE BOX! Tired of feeling apathetic? Time to slough off the ennui of winter? Feel like you are limited by social constraints, rules and regulations that do not serve our unique campus community? Well, take action and write yourself out of the BOX. All over campus there are white squares of paper appearing (1/6 of a standard sheet of paper). The challenge? To communicate something within that limited space that challenges our perceptions and gets us to think OUTSIDE the BOX!

Deliver Your BOX to the Writing Center's BOX DROP. Every week, purple table tent cards with the week's calendar of historical subversive activities that have changed the world and YOUR boxes, will be distributed around campus. So we can all step outside the BOX!
The Student Center at Stony Brook Southampton, which would be expanded under a current plan.
