Dr. John J. Wiens  
Department of Ecology and Evolution  
Stony Brook University  
Stony Brook, NY, 11794-5245

Dear Dr. Wiens,

I am completing a doctoral dissertation at Stony Brook University entitled "The role of history in adaptation to novel environments: the relationship between morphology, performance, and phylogenetic history in frogs."

I would like your permission to reprint in my dissertation the following articles in their entirety:

Moen, D. S., and J. J. Wiens. 2009. Phylogenetic evidence for competitively-driven divergence: body-size evolution in Caribbean treefrogs (Hylidae: *Osteopilus*). *Evolution* 63:195–214.

Moen, D. S., S. A. Smith, and J. J. Wiens. 2009. Community assembly through evolutionary diversification and dispersal in Middle American treefrogs. *Evolution* 63:3228–3247.

The requested permission extends to any future revisions and editions of my dissertation, including non-exclusive world rights in all languages, and to the prospective publication of my dissertation by UMI. These rights will in no way restrict republication of the material in any other form by you or by others authorized by you. Your signing of this letter will also confirm that you own the copyright to the above-described material.

If these arrangements meet with your approval, please sign this letter where indicated below and return it to me in the enclosed return envelope. Thank you very much.

Sincerely,

Daniel S. Moen

PERMISSION GRANTED FOR THE USE REQUESTED ABOVE:

John J. Wiens
